PUBLIC WORKS DEPARTMENT.

Buildings and Roads Branch.

Proceedings of the Punjab Government (Ministry of Agriculture) in the Public Works Department, Buildings and Roads Branch.

No. 85-G., dated the 19th January 1933.

READ—

The Administration Report of the Public Works Department, Buildings and Roads Branch, for the year 1931-32.

THE total expenditure for the year was Rs. 1,21,32,504 against Rs. 1,56,62,407 for 1930-31. The decrease is due to drastic curtailment of expenditure on Civil Works necessitated by the prevailing financial stringency.

The net percentage of expenditure on establishment to the total expenditure on works during the year amounts to 14·8 as compared with 13·3 last year. Credit is due to the department for achieving this result in a year when all new development was practically at a stand-still and all its activities were almost entirely confined to maintenance work.

Communications.—At the end of the year under review there were 2,699 miles of metalled and 1,950 miles of unmetalled roads in charge of this department —an increase during the year of 32 miles in the former. The total unmetalled length remained practically unchanged.

The last Administration Report reviewed in some detail the situation as regards communications generally; and, as during the year under review no fresh development work was undertaken, no further details are called for. Owing to scarcity of funds, the standard of road maintenance had unfortunately to be lowered to some extent—a contingency foreseen and accepted by the Retrenchment Committee. The policy of surface treatment of roads was, however, steadily continued, and tarring was extended to 414 additional miles, thus bringing the total length of the roads so treated to 1,065 miles by the end of the year.

Bridges.—Road bridges over large rivers in the Province are a factor of vital importance to its road system. Two major bridges, *viz.*, the combined Road and Railway bridges over the river Jhelum at Khushab and over the river Chenab at Chiniot were opened to traffic in April 1932. This event marks an important stage in the advancement of highway facilities in the Punjab.

The new bridge over the Bhimber Nullah in mile 74 of the Grand Trunk Road, near Gujrat, was also completed.

Quarries.—The output of the quarry at Taraki was extremely small. This was due primarily to the fact that the drop in the price of labour has enabled privately owned quarries to compete successfully against the departmental rate fixed by a contract agreement which is binding till 1934. It was also due to the decrease in demands for stone required for renewals consquent on the increase in surface treatment. As the undertaking

has been a source of considerable loss to Government the question of determining the contract was receiving serious consideration.

Buildings.—The total expenditure on building construction during the year was Rs. 18,38,276. Agricultural buildings formed the largest item, followed in order by those for the Medical Department, Civil Works and the Education Department. The expenditure under major heads on buildings (Original Works and Repairs) was—

With the completion of the work on the 4th and final instalment, the scheme for housing Indian Clerks on the Chauburji Gardens Estate was completed at a total cost of about Rs. 20 lakhs. It provides residences for 370 clerks in healthy surroundings and sanitary conditions, and affords a vast improvement in the living conditions of this class of Government servants.

Work on the buildings of the Maternity Hospital at Lahore continued to progress. The main ward block, containing 56 beds, was completed and occupied. The work on the last remaining block, containing operating theatres, labour rooms, and air conditioning plant was nearing completion. On completion of the whole project, consisting of nine blocks and costing approximately 10½ lakhs, Lahore will be provided with one of the most modern and up-to-date Maternity Hospital in India.

The Normal and Middle School and Boarding House for Girls at Hoshiarpur, estimated to cost Rs. 1,76,517, in progress from the last financial year, was completed at an expenditure of Rs. 1,49,881.

Public Health.—The most important work under execution during the year in this sphere of activity was the Murree Water-works Extension. Hitherto owing to insufficient yield from springs on which it depends for its supply, Murree has suffered from a chronic shortage of water during the hot months preceding the monsoon. The extension involves the construction in two compartments of a large pressed steel reservoir of over three million gallons capacity. It is understood that they are the largest of their kind in the world. Their object is to

store, in the early spring, water then fortunately surplus to requirements, and thus balancing the deficit during the the succeeding dry period.

A steam boiler plant and a refrigerative air-conditioning installation were in course of erection in the basement of the operation block in the new Maternity Hospital at Lahore. The steam boiler plant will supply steam for heating this block in addition to that required for the sterilizers and hot water supply for the whole hospital, the central heating by radiators through indirect calorifiers in the main block and the steam disinfecting plant and laundry. This installation is the first of its kind applied to a hospital in India.

The total quantity of drinking water pumped during the year from installations maintained by the Public Health Circle was no less than one thousand million gallons. This quantity is one and-a-half times the annual supply received by an important town like Amritsar with a population of over two hundred and sixty thousand inhabitants.

Electrical Engineering.—The activities of this Department continued to increase. Owing to the transfer of the Renala Hydro-Electric Installation from the Irrigation Branch, the Electrical Engineer's establishment was augmented during the year by another Sub-Division.

ENGINEERING EDUCATION.

(a) *The Maclagan Engineering College.*—The report for the year is interesting and shows that the college is gaining in popularity and competition is becoming keener, especially in 'B' Class, where 400 candidates competed for 35 vacancies in spite of the reduction in stipends. Twenty-one students competed for admission to 'A' Class of whom 18 were admitted.

The results of the final examination in 1931 showed that of 9 'A' Class students who sat, all pased, while of the 38 'B' Class students who appeared, only 19 secured qualifying marks.

During the year the peace of the college was unfortunately interrupted for a short time by the Muslim students going on strike, owing to certain alleged grievances. A committee was appointed to enquire into the matter, and the students concerned having expressed regret for their conduct, were permitted to re-enter college and continue their studies.

(b) *Government School of Engineering, Rasul.*—In spite of the fact that propsects for employment are increasingly unfavourable, it is satisfactory to note that competition for entrance to the school was almost as keen as ever, 295 candidates having competed for 66 vacancies.

The results of the final examination for overseers were satisfactory, 24 students having obtained the higher certificate and 27 the lower, while only 1 student failed. Of the 51 successful candidates, employment was found for 12 in the Irrigation Branch, and 10 being State scholars were dependent for employment on their respective States.

All 14 draftsmen students in the 2-year and all 5 in the 3-year course qualified. Of the total only 5 have obtained employment.

It is gratifying to note that the endeavours to reduce the running expenses of the school have resulted in a saving of Rs. 17,500, the cost per student having been reduced from 580 to 487.

The peace of this school also was interrupted during the year for a short time by the Muslim students going on strike owing to certain grievances. A satisfactory enquiry was held, and the students concerned were permitted to return.

Administration.—The Punjab Government (Ministry of Agriculture) records its profound sense of loss by the untimely death which occurred at Simla on 6th July, 1932, of Mr. E. L. Crawford, who had continued to perform with his usual ability the duties of Chief Engineer and Secretary to Government, Public Works Department, throughout the year under report. His sincerity of purpose, simple code of honour and chivalrous consideration for others endeared him to all with whom he came in contact.

The year under review was marred by the death on 16th October, 1931, through an unfortunate motor accident, of Bawa Budh Singh, Executive Engineer. 1932 unfortunately brought yet another loss in the death at Lahore on 22nd May of A K. Cargill, Officiating Superintending Engineer. Both of them were experienced and well tried officers whose untimely deaths Government much deplores.

At various times circumstances compelled Khan Bahadur Sardar Habib Ullah, Sardar Sahib Sardar Ujjal Singh and Mr. H. F. Ashton to resign their membership. They were succeeded by Sardar Arjan Singh, M.L.C., Sheikh Faiz Muhammad, M.L.C. and Mr. Murphy, I.S.E. The Committee examined witnesses and invited suggestions from the public through an announcement in the press. In all the Committee held fifty meetings and submitted its report to Government in November, 1931. The financial effect of the economies recommended by the Committee, had as far as it was possible to give any figures, was estimated by the Committee to be 245 lakhs.

3. The recommendations of the Committee have been subjected to a prolonged and detailed examination by the Governor-in-Council acting with his Ministers and the decisions arrived at are embodied in the attached two statements. These statements have been prepared in the Finance Department on information provided by the Administrative Departments concerned. In some of their recommendations the Committee touched upon subjects which are outside the control of a local Government. The Committee took as the basis of their calculations of possible savings the figures given in the Budget Estimates for 1931-32. For the departments, whose expenditure the Committee reviewed, the amount voted by the Legislative Council for 1931-32 was 1116 lakhs. For the expenditure of the same departments the Legislative Council will, for 1933-34, be asked to vote 970 lakhs. Fourteen lakhs of this represents increments of salary earned since 1931-32 and for purposes of comparison with the estimates for 1931-32 the estimates for 1933-34 must be reduced by this amount. The gross saving on the budget figures for 1931-32, which the budget estimate for 1933-34 represents, is, therefore, 160 lakhs (1116 lakhs minus 956 lakhs). The 1931-32 estimate, however, took account of various economies which the Punjab Government, anticipating in some directions the recommendations of the Committee, had already introduced during the winter of 1930-31. The average expenditure in pre-depression years 1928-29, 1929-30 and 1930-31 (modified grant as it stood in September 1930) in these departments was 1210 lakhs. The budget for 1933-34, therefore, shows savings amounting to some 2½ crores compared with pre-depression budgets. The greater part of this saving has been effected on lines indicated by the Retrenchment Committee.

4. The Governor-in-Council acting with his Ministers takes this opportunity to express his thanks to the Chairman and Members of the Retrenchment Committee for their careful scrutiny of the public finances and for a valuable and practical report.

ORDERED that a copy of the resolution be forwarded to all Heads of Departments, Commissioners of Divisions, District and Sessions Judges and Deputy Commissioners in the Punjab.

ORDERED also that the resolution be published in the *Punjab Gazette*.

(2) The terms and conditions upon which the tenant may, in the circumstances specified in the preceding clause of this condition, purchase from the Government the proprietary right in the land granted to him as such tenant, as aforesaid, shall be as follows :—

Firstly.—That the tenant shall duly pay to the Government as purchase money a total amount which shall be fixed as shown in the statement below in accordance with the number of half-yearly instalments in which the amount is payable :—

Secondly.—That it shall be open to the tenant to select any number of instalments included in the above statement in which to pay the amount payable for the purchase of proprietary right :

Provided that the amount of the first instalment paid by him shall determine the number of instalments, and that he shall not be allowed to complete the purchase in a greater or less number of instalments without the special permission of the Collector.

Thirdly.—That with effect from the harvest in which the first instalment is paid the malikana otherwise payable on the tenancy shall be conditionally remitted, and so long as the tenant regularly and within due date continues to pay the instalment due no malikana shall be assessed on the land of the tenancy. Fourthly.—That the Collector may fix a date not later than the 15th November for the *kharif* payment and not later than the 1st April for the *rabi* payment before which the tenant shall pay the instalment for the *kharif* and the *rabi* harvest, respectively. A tenant who does not pay his instalment before the date so fixed shall be deemed to have defaulted for that harvest.

Fifthly.—That the tenant shall not acquire any proprietary or other right, not conferred upon him as a tenant by the conditions contained in this statement of conditions, and shall continue to be subject to the conditions of the tenancy, unless and until the whole amount of the said purchase money shall have been duly paid and discharged in the manner hereinbefore provided.

Sixthly.—Provided also that the Collector may withhold proprietary rights from the tenants of any estate in which the state of crime is such as in his opinion to disentitle the villagers to the concession.

Seventhly.—Provided also that proprietary rights may also be withheld from the tenants of any estate in which a breach of the canal or distributary has occurred within five years of the date of the tenant's application for purchase, if there is reason to believe that such breach was wilfully caused by residents of the estate.

(3) When any tenant has, under the provisions and in pursuance of the preceding clauses of this condition, purchased the proprietary right in any lands from the Government, and has duly paid the whole of the purchase money therefor to the Government, and has complied with all the terms and conditions hereinbefore provided in that behalf, the Government shall execute, or cause to be executed, a valid conveyance granting, conveying and assuring the proprietary right so purchased to the purchaser, and the purchaser shall thereupon, in respect of the land so purchased, cease to be subject to the conditions herein contained with the exception of conditions Nos. 6, 7, 8, 9, 13, 15 and 23 by which and by the provisions of the Colonization of Government Lands (Punjab) Act, 1912, applicable to proprietors of land, he shall continue to be bound.

(4) A tenant who has acquired proprietary right in his tenancy will also receive proprietary right in the land allotted to him in the village site on payment at the same rates as for the tenancy.

No. 8720.—His Excellency the Governor, acting with his Ministers, has learned, with the deepest regret, of the death at sea of William Robert Wilson, of the Indian Civil Service.

The late Mr. Wilson commenced his career in India in November, 1907; from 1914 to 1916 he was Assistant Settlement Officer in Jullundur, and in the latter year he was posted to Dera Ghazi Khan where, with an interval for leave, he worked until 1924. In carrying out the Second Regular Settlement of this remote district, Mr. Wilson acquired an intimate local knowledge of its peculiarities and complexities and became an acknowledged expert on the intricate problems of this difficult tract. His full knowledge of detail and ripe judgment enabled him to combine a sympathetic solicitude for the interests of the proprietors with a careful regard to the rights of Government, and his admirably drafted orders bear witness to his ability and devotion to duty.

After holding charge of the Jhelum district for nearly two years, the late Mr. Wilson became Revenue Secretary to Government, and brought to his task an unusually extensive knowledge of the land systems of the province. In 19 0, he joined the Co-operative Department and for the remaining period of his active service his sound commonsense and his deep sympathy with the people found full play.

His selfless devotion to duty in spite of ill-health and the exacting demands he made on his strength in his endeavour to spare nothing in the interests of his charge led to a breakdown in the early spring, and he was compelled to take leave, but he died before reaching Marseilles. By his early death, the Punjab loses an officer who brought to every task the single desire to give of his best to the people without thought of himself; and a large circle of friends will miss a colleague of lofty and unselfish character who endeared himself by his humanity, his humour and his unfailing thought for others.

2. In these rules—

3. No government servant shall be rendered ineligible for re-employment in any service by reason of his age unless he has attained the age prescribed for superannuation from that service.

4. Subject to the provisions of these rules a re-employed government servant shall be subject to such conditions of service in respect of pay, leave and all other matters as would for the time being be applicable to him if he had entered government service for the first time on the date of his re-employment.

5. Where the previous service of a re-employed government servant was pensionable the following provisions shall apply with respect to the retention of the compensation pension or gratuity (not including the additional pension or additional gratuity sanctioned under order 6 in Section B of the Retrenchment Orders) accruing in respect of his previous service :—

(1) If the government servant is re-employed in superior service with an initial pay of not less than 75 per cent. of the pay of the permanent (non-tenure) post on which he held a lien (active or suspended) on the date of his receipt of notice of discharge or of acceptance of his offer to retire, the portion, if any, of such compensation pension or gratuity which he shall be permitted to retain shall be determined by the Local Government.

(2) A government servant re-employed in superior service with an initial pay of less than 75 per cent. of such pay as aforesaid or in inferior service shall be entitled to retain the whole of such compensation pension or gratuity.

(3) If the pay of a government servant re-employed in superior service whose initial pay on re-employment was not less than 75 per cent. of such pay as aforesaid thereafter becomes less than 75 per cent. thereof by reason of a reduction in the rates of pay applicable to the service in which he is re-employed he shall be entitled from the date of such reduction to receive the whole of such compensation pension as aforesaid, or as the case may be, to receive payment of such compensation gratuity as aforesaid less any amount thereof which he may have been permitted to retain under clause (1).

6. Where the previous service of a re-employed Government servant was superior and non-pensionable, the question of his retaining or refunding the concessions granted to him under Section C of the Retrenchment Orders will be decided on the merits of each case.

7. Where the previous service of a re-employed Government servant was superior and temporary, including officiating and probationary periods, the concessions allowed to him under Section E of the Retrenchment Orders will be retained by him.

8. (1) Where a government servant is re-employed in permanent superior service before the expiration of the leave granted under order 2 in Section B of the Retrenchment Orders he shall notwithstanding re-employment be entitled to draw leave salary in addition to pay for the unexpired portion of such leave, and the period during which leave salary is so drawn shall be reckoned as leave for the purposes of clause (1) of order 4 in Section B of the Retrenchment Orders ; provided as follows :—

(a) Any compensation pension or gratuity retained under rule 5 shall not commence or become due for payment until such leave has expired.

(b) No period of re-employment otherwise qualifying for a second pension or gratuity shall so qualify if it coincides with a period already reckoned by virtue of the Retrenchment Orders for compensation pension or gratuity

in respect of previous service, or with a period in respect of which the re-employed government servant continues under sub-rule (1) of rule 10 to be a member of a Contributory Government Provident Fund applicable to his previous service.

(2) Where a Government servant is re-employed in permanent superior service, he shall cease to draw the additional pension, if any, granted to him under order 6 in Section B of the Retrenchment Orders, from the date of his re-employment, and, if any additional gratuity was granted to him under the said order 6, he shall refund it, in such instalments as the re-employing authority may direct to the extent of the amount, if any, by which the said gratuity exceeds the amount equal to 1/24th of a month's pay for each completed month which elapses between the expiration of leave on full or average pay and the date of re-employment.

(3) A government servant re-employed in permanent superior service shall not be required to refund any travelling allowance drawn in accordance with order 7 in Section B of the Retrenchment Orders and actually utilised, but he shall receive no travelling allowance for the purpose of joining Government service on re-employment.

9. (1) Sub-rules (1) and (3) of rule 8 shall apply to a government servant re-employed in temporary or officiating superior service in like manner as they apply to a government servant re-employed in permanent superior service.

(2) In the case of a government servant re-employed in temporary or officiating superior service, the additional pension, if any, granted to him under order 6 in Section B of the Retrenchment Orders shall be withheld for the period of his re-employment in temporary or officiating service, and, thereafter, on his discharge it may be re-granted, if considered necessary by Government. As to the additional gratuity granted under the said order 6, the Government servant so re-employed is entitled to draw and retain it in whole, provided that if his service thereafter becomes permanent he shall be required to refund it, in such instalments as the re-employing authority may direct, to the extent of the amount which he would have been required to refund under sub-rule (2) of rule 6 if he had originally been re-employed in permanent service.

10. A government servant re-employed in inferior service, whether permanent, officiating or temporary, shall be entitled to retain all the concessions accruing to him under the Retrenchment Orders including leave salary for any period admissible as leave under the said orders but coinciding wholly or partly with a period of re-employment ; provided that no period of re-employment otherwise qualifying for a second pension or gratuity shall so qualify if it coincides with a period already reckoned by virtue of the Retrenchment Orders for the original compensation, pension or gratuity.

11. If any question arises whether the service in which a government servant is re-employed is permanent or officiating or temporary, or whether it is superior or inferior, the question shall be referred to the Local Government whose decision shall be final.

12. (1) Where a re-employed government servant is on the date of his re-employment a member of a government provident fund (whether contributory or not) applicable to his previous service, he shall continue to be a member of such fund until the date of expiration of the leave granted to him under order 2 in Section B of the Retrenchment Orders on which date the amount standing to his credit in the fund shall become payable.

Provided that nothing in this sub-rule shall operate to the prejudice of any rule of the fund permitting the whole or any part of such amount to be paid on an earlier date.

(2) Where a re-employed Government servant is required or permitted under the conditions of service applicable to him on re-employment to become a member of a government provident fund (whether contributory or not) his obligation or as the case may be his right to become a member of such fund shall, if the date of his re-employment precedes the date of expiration of the leave granted to him under order 2 in Section B of the Retrenchment Orders, not take effect until the last named date.

(3) Where a re-employed government servant continues under sub-rule (1) to be a member of a government provident fund applicable to his previous service until the date of expiration of the leave granted to him under order 2 in Section B of the Retrench ment Orders and becomes on the same date a member of a government provident fund applicable to his service on re-employment he shall, whether or not the fund applicable to his service on re-employment is the same fund as the fund applicable to his previous service, become a member of the fund applicable to his service on re-employment on the footing of a new member, and his account in the fund applicable to his previous service shall be

closed with effect from the date on which the amount standing to his credit therein becomes payable under sub-rule (1).

No. 4827-REV.

Dated Lahore, the 28th March 1933.

Resolution by the Governor in Council of the Punjab and its Dependencies.

READ—

Administration Report by the Chief Engineer, Irrigation Works, Punjab, of the Canals in the Punjab for the year 1931-32.

Canals in operation.

The Capital Outlay to date, direct and indirect, on the productive or Major Irrigation Works in operation at the close of the year 1931-32 was Rs. 46,25,55,250, of which Rs. 21,37,14,783 were spent on the Sutlej Valley Canals, including Rs. 11,51,19,069 contributed by the States of Bahawalpur and Bikaner, co-partners in the Project. The net expenditure during the year on the Open Canals, *i.e.*, after excluding Rs. 89,05,459 on account of Sutlej Valley Canals, was Rs. 6,52,230 as against Rs. 7,37,150 in 1930-31 and Rs. 9,31,597 in 1929-30. This expenditure was incurred mainly on the Upper Jhelum and Lower Bari Doab Canals; on the former principally on constructing permanent protection to sand stone cliff on left flank of River Jhelum upstream of Mangla Head Regulator and on the latter on remodelling the Gugera Branch and Extension of 8-R Distributary.

At the end of the year under report, the following canals were classed as Productive Works :—

1. Western Jumna Canal.
2. Sirhind Canal.
3. Upper Bari Doab Canal.
4. Lower Bari Doab Canal.
5. Upper Chenab Canal.
6. Lower Chenab Canal.
7. Upper Jhelum Canal.
8. Lower Jhelum Canal.
9. Sidhnai Canal.
10. Chenab Inundation Canals.
11. Sutlej Valley Canals.

The Unproductive canals for which Capital and Revenue Accounts are kept, *viz.*, the Indus Inundation Canals, the Shahpur Inundation Canals, the Ghaggar and the Muzaffargarh Inundation Canals show a credit of Rs. 5,915 during the year which reduced the total expenditure to date to Rs. 62,52,055, including Rs. 2,9[illegible],772 contributed by the Bikaner State towards the cost of the Ghaggar Canals.

Nature of season—Kharif, 1931, Rabi, 1931-32.

2. Except for showers in places, the weather in April was generally dry. Light rain was received during May, and the rainfall in June was below normal The monsoon remained fairly active during July and August and gave moderate to heavy rain in the major part of the Province. Rainfall during September was generally below normal except in the submontane and a few central and south-eastern districts where it was above normal.

The rainfall in October was above normal and was helpful for Rabi sowings. The weather during November and December remained dry, and the supply in the rivers was not sufficient to meet the keen demand on the various canals. Light rain fell in most districts in the second week of January and in the first half of February, and the rainfall in March was generally normal. These rains proved beneficial to standing crops.

3. The areas irrigated by both productive and unproductive canals compare as below with the corresponding figures for the year 1930-31 and the average of the two previous triennial periods ending 1927-28 and 1930-31 :—

In British India territory, the area irrigated shows a decrease of 536,637 acres and 609,139 as compared with 1930-31 and the average of triennium ending 1930-31, respectively, and an increase of 517,876 acres as compared with the average of three years ending 1927-28. The increase is mainly due to the development of irrigation on Sutlej Valley Canals, while the decrease is attributed to the following causes :—

(*a*) Reduced cultivation on account of the universal fall in prices of agricultural commodities.

(*b*) Late and short supply in the rivers.

(*c*) Heavy rains in the end of August resulting in large areas on the Sirhind and Upper Bari Doab Canals being sown and matured without the aid of canal water.

4. The areas of the principal crops irrigated during the Kharif season are compared below with those of 1930-31 :—

During the Rabi there was thus a net decrease of 171,793 acres.

Remissions.

6. The area on which irrigation charges were remitted was 976,647 acres as against 971,163 acres in 1930-31. Of this, 157,117 acres represent the area which was not assessed to water rates due to concessions given to crops (*a*) under colony conditions, (*b*) ploughed in as green manure, and (*c*) sown in the moisture of a previous crop ; the area of crops that actually failed amounted to 819,530 acres or 6·63 per cent. of the area sown, as against 6·22 per cent. of the last year. Of this, remissions were given as follows : 102,515 acres on account of short supply, 78,910 acres on account of damage done by hail, 25,416 acres on account of flooding, 362,244 acres on account of bad soil, 18,597 acres on account of bad germination, 93,650 acres on account of damage done by locusts, other insects and blight, and 138,198 acres for other miscellaneous causes.

Besides the above on account of the low price of agricultural produce, special reductions in occupiers rates on cotton and wheat were made during the year, at rates varying from Re. 0-12-0 to Rs. 3 per acre in the case of the former, and at flat rates of Re. 1 and Re. 0-8-0 per acre on perennial distributaries of perennial canals and Kharif Distributaries of perennial canals, respectively, in the case of the latter. Remissions of land revenue at rates varying with the conditions in the different assessment Circles were also granted during the year. The value of these special reductions and remissions, amounted to eighty lakhs of rupees.

The gross receipts include Rs. 1,40,00,619 on account of indirect receipts for land revenue and water advantage rate credited to irrigation, Malikana in cases where proprietary rights have not been acquired by colonists and others, and Rs. 48,45,040 on account of interest at 5·47 per cent. per annum on "nazrana" and sale-proceeds of Government waste lands in the colonies. This last figure is not an actual receipt as the money has not been out at interest, but is simply a *pro forma* credit given to the extent to which interest would have been earned if the sale-proceeds of Government land had been invested. The gross receipts per acre matured work out at Rs. 5·84 and the direct receipts to Rs. 3·8 per acre.

* Excludes the expenditure directly incurred by the Baháwalpur State.

The reasons for the higher rates in the cases of the following canals are:—

Western Jumna Canal.—The intensity of irrigation on this Canal is appreciably lower than on the more modern canals.

Upper Chenab, Upper Jhelum and Lower Jhelum Canals.—The first two are essentially feeder canals for the Lower Bari Doab Canal and the Lower Chenab Canal. Moreover, the Upper Jhelum Canal passes along the Pabbi Hills for a large part of its length in which there are numerous high embankments and drainage culverts which make the cost of maintenance unusually heavy. The comparatively high rate of the Lower Jhelum Canal is due to the unusually heavy cost of repairs necessitated by the damage caused by the 1929 floods.

Pákpattan, Dipálpur, Eastern and Eastern Sadiqia Canals.—These Canals having been recently constructed, the rate of expenditure has no comparison with those on other open canals.

Mailsi and Bahawal Canals.—The high rates on these Canals are due to the heavy expenditure incurred during 1929-30 and 1930-31 on the repairs of the Islam Weir which was damaged seriously during the 1929 floods.

Ghaggar Inundation Canals (Bikáner).—The high rate of expenditure is due to considerable amount spent direct by the State, during 1930-31, on special repairs to the banks of Northern Ghaggar Canals.

Considering Direct Receipts only, the net revenue earned by the Productive Works amounted to Rs. 2,46,51,553. From this has also to be deducted the interest charges for the year amounting to Rs. 1,31,70,350 ; so that the net profit was Rs. 1,14,81,203 or 3·46 per cent on the Capital Outlay of Rs. 33,17,70,729, as compared with 1·73 per cent. in the preceding year. The increase in net revenue is mainly due to the large decrease of about 82 lakhs in working expenses during the year, obtained by the exercise of the strictest economy.

If the indirect receipts are included, the net revenue amounted to Rs. 4,29,5 ,474 or a return of 12·95 per cent. on the Capital Outlay as compared with 12·65 per cent. in 1930-31.

Canals under construction.

10. The progress made on the works under construction on the Sutlej Valley Project during the year was satisfactory. A detailed description of the progress made will be found on pages 37 to 48 of the Chief Engineer's report. The expenditure (Direct and Indirect) incurred on the Sutlej Valley Canals during the year amounted to 89 lakhs of rupees bringing the total outlay to date to about Rs. 21,37 lakhs. This includes a contribution of 11,51 lakhs from the States of Baháwalpur and Bikáner who are co-partners in the Project. Revenue Accounts of the Project were opened in 1926-27 and the net revenue earned during 1931-32 by the British Canals was Rs. 29·06 lakhs after deducting Rs. 19·21 lakhs for Working Expenses.

Expenditure on construction.

Projects.

11. During the year, the designs for the Haveli Project were got out and the estimating work completed sufficiently to make a note on the financial aspect of the Project to be prepared.

On the Bhakra Project, the Survey of India continued their work and covered a considerably greater area than they had anticipated.

Average value of crops.

12. The estimated average value of the crops raised on all canals during the year works out to about thirty-three crores of rupees giving an average rate of Rs. 29 per acre assessed as against Rs. 25 in 1930-31 and Rs. 41 in 1929-30. The decrease during the year as compared with the year 1929-30 is due to the abnormal fall in the market value of the outturn of the various crops.

Length of channels in operation.

13. The length of channels in operation at the end of March 1932 was 24,165 miles, *viz.*, 4,603 miles of Main and Branch Canals and of 19,562 miles of Distributaries.

Waterlogging and scientific research connected therewith for the year ending 31st October 1932.

14. Every consideration concerning the situation as regards waterlogging continues to be given by Government. Close attention has been devoted during the year in pursuit of the investigation of its causes and in furtherance of measures for reducing and preventing the further extension of its ill-effects. The annual Conference was held in September 1931, and was attended by all Members of Government and presided over by His Excellency the Governor. At this Conference the up-to-date waterlogging conditions were brought under review and the results of the year's research work and progress on measures undertaken were considered with reference to proposals for the ensuing year's work.

The Waterlogging Board.

15. The Waterlogging Board continued to hold its meetings during the year at which regular surveys of the conditions as regards waterlogging in the affected districts of the Punjab were brought under exa-

mination. At these meetings, the Board reviewed the results and progress of remedial measures undertaken already and scrutinised schemes proposed to be undertaken or extended with a view to improving the conditions as regards both the land and public health. The subject of the relative value of different means employed to cure and cope with the threat of waterlogging came under special enquiry and attention was directed to the conditions and the necessity of increased surface drainage systems to cope with the rising spring levels by securing the flow of storm water in excess of the ordinary capacity of pumping stations situated on tube wells and open drains.

In carrying out its functions for scrutinising new canal projects from the waterlogging stand point, the Haveli Canal Project came before the Board and was duly endorsed by them with recommendations on certain points.

The programme for Scientific Research drawn up by the Irrigation Agricultural Research Committee and the detailed quarterly Progress Reports of Scientific Research in the Punjab Irrigation Research Institute were dealt with in the exercise of the Board's control over these subjects.

Following on retrenchment measures taken early in the year by which the activities of the Rural Sanitary Board were curtailed the Waterlogging Board brought under review the functions of the different bodies concerned as to their responsibility for operations connected with flooding due to natural causes. Their recommendations, for the adjustment of these functions, were approved by Government and should do much to clear the way for a more comprehensive policy in dealing with the waterlogging problem as a whole.

The Rural Sanitary Board.

16. The activities of the Rural Sanitary Board have been curtailed by the abolition of posts owing to financial stringency and by the transfer of schemes for drinking water supplies to the Sanitary Board.

It has been decided with a view to improved co-ordination and control of Drainage and Embankment works to extend the charge of the Irrigation Branch over all such works excepting those dealing exclusively with sanitation. The Rural Sanitary Board will accordingly be abolished and Drainage and Embankment works will come under the administrative control of the Secretary, Irrigation Branch, for the appropriate and nearest canal area. With this re-organisation, the designation of Superintending Engineer, Rural Sanitary and Waterlogging Investigation Circle becomes Superintending Engineer, Drainage Circle.

Irrigation Agricultural Research Committee.

17. A meeting of the Agricultural Irrigation Research Committee under the Chairmanship of Rai Bahadur Bawa Natha Singh, Superintending Engineer, Sanitary and Waterlogging Investigation Circle, was held on 15th October 1932, at which the progress during the year on Agricultural Irrigation Research matters was reviewed. Work done on the examination of soils on the area irrigated by the Burala Branch Extension and for the Haveli Project is of especial interest. The Committee decided on certain steps to be taken to keep in touch with the work of other similar bodies.

Tube-Well Investigation Committee.

18. The various experts in the Sub-Committee have made satisfactory progress in their investigations on Tube-Wells and the cost of installing and working same. Rapid advance is being made in the development of Tube-Wells and in the near future, it may become advisable to establish a permanent Tube-Well Committee to meet once a year or oftener to review the progress of development and collect useful data.

Punjab Irrigation Research Institute.

19. The re-organisation and expansion of the Punjab Irrigation Research Institute under the Directorship of Dr. E. McKenzie Taylor has proceeded on most satisfactory lines throughout the year.

An application to the Imperial Council of Agricultural Research for a grant towards the re-organisation and expansion of the Punjab Irrigation Research Insitute was made. This was considered by the Advisory Board and is now being dealt with by a committee. Contact with research in other Provinces was maintained by the annual meeting with the Research Officers of Bombay, Sind, United Provinces and Central Provinces under the auspices of the Central Board of Irrigation.

The principal work now being undertaken at the Institute—the reclamation of *kallar* land, the scientific aspect of waterlogging problems and the investigations made with the object of better silt control—is of the utmost importance both to Government and to the cultivator in general. The prospect of the reclamation of lands now out of cultivation, whether by reason of the presence of salts or by waterlogging, means a considerable addition in revenue to Government and a means of livelihood to the cultivator, whilst a better knowledge of the control of silt will save Government much expenditure and loss of revenue annually. For these reasons, promising lines of investigation are being pushed on in spite of financial stringency.

Variations in the Depth of the Water-table.

20. It is satisfactory to record no appreciable rise this year in the general level of the water table over the Chaj and Rechna Doabs, while there has been a further slight fall in the Bist Doab. Records show a slight rise to have taken place in the Pákpattan and Lower Bari Doab Canal areas but there is no immediate anxiety on that account. The depth to the water-table in these areas will, however, continue to be closely observed.

Thur and Sem Surveys.

21. During the year under review, Girdawaris of the damaged area were conducted in twelve districts, the addition to previous years being that of the Montgomery Tahsil. No estates in the Montgomery District were found to be affected by Thur or Sem. A definite initial record of this kind will prove valuable in future investigations over the area. Altogether, over the twelve Districts surveyed, there has been found to be a nett decrease during the year of thirty-one estates affected by waterlogging. The nett decrease in area affected by Thur during the year is 96, acres while the decrease in the Sem area is 2,158 acres. The total decrease under both heads is thus so small in comparison with the total area, as only to permit the conclusion to be drawn, that during 1931-32 waterlogging was not on the increase.

22. *Distribution of Irrigation Supplies.*—The programme of restricting supplies on the Lower Jhelum and Upper Chenab Canals continued with modifications as to the exact dates of the closures in order to meet the requirements of the agricultural operation. Owing to an abnormally low river early in the year, the total closure of the Upper Chenab Canal during one period was cancelled in favour of the requirements of water for the Lower Bari Doab Canal. Closures on the Lower Jhelum Canal appear to have no detrimental effect on the crops.

23. *Progress in anti-waterlogging works.*—A further step was taken in lowering the supply levels in the Main Line of the Upper Jhelum Canal by alterations to the works in the Tail reach. These measures, as also similar ones already undertaken on the Upper Chenab Canal, have resulted in lowering the bed level by scouring and are expected in course of time, as this process advances, to effect further improvement in the waterlogged areas adjoining the Canal.

The completion of new pumping stations on the Khadir Branch of the Lower Jhelum Canal and between the Jhang and Rakh Branches of the Lower Chenab Canal together with the increase in the capacity of existing pumping stations and the enlargement of the Rechna and Wan Drains is having good effect on the areas concerned. New pumping stations were opened at R. D. 80,000 of the Jhang Branch and at Marh and Sadkana villages between the Rakh and Jhang Branches on the Lower Chenab Canal. Extensions of existing drainages for storm water and opening out of some of the existing main drainages in each of the canal areas of the Northern Administration has been arranged for and work has been started in certain cases to the extent governed by the financial situation.

Several other important Drainage Projects are well advanced and only await a more favourable financial atmosphere to enable them to be put forward for sanction.

24. *Chakanwali Land Reclamation Farm.*—The operations on the Chakanwali Farm under the control of the Director, Irrigation Research, have continued with marked success, so much so, that the Director expects the normal yields of the province from his crops on reclaimed lands. It is of interest to note that the presence of a Kankar layer in a waterlogged area makes reclamation work increasingly tedious and difficult. The construction of meter flumes on the Farm has now made it possible to gauge with considerable accuracy, the actual water supply used in the reclamation and subsequent cropping of the land. Such data is obviously of considerable importance in work of this kind.

25. *Central Board of Irrigation, Research Committee.*—The second annual meeting of the Research Committee of the Central Board of Irrigation was held in Simla on the 21st and 22nd July 1932 and was fully attended. In connection with the question of waterlogging, an important note by Dr. McKenzie Taylor on "Regression Curves" came up for discussion and the Board also had before it for general examination this year the subject of "Conservation of water for irrigation purposes."

26. The posts of the Chief Engineers were held during the year by Mr. (now Sir Joseph) Smith, C.I.E. and Messrs. R. P. Hadow, C.I.E., H. F. Ashton, A. Murphy, O.B.E., T. M. Bostock and A. P. Varma.

The departure on retirement of Sir Joseph Smith after a service of over 32 years in the Department deprived Government of the services of an officer whose excellent work and great devotion to duty had been always recognized. Ill health compelled Mr. Ashton to take sick leave during the year : and it was with great regret that Government heard subsequently of his death : in him the Department has lost an officer of much experience and ability.

No fixed limit of height is enforced.

4. The candidate's chest will be measured as follows :—

The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted. The minimum and maximum will then be recorded in inches, 33-35, 34—36½, etc. In recording the measurements, fractions of less than ½ inch should not be noted.

The rules relating to admission and withdrawal, discipline and registers, shall be observed with respect to such probationary classes.

NOTE.—For the purposes of this rule, the Easter, Summer and Christmas holidays shall determine the end of a term.

Classes recognised by a competent authority may not be closed without the sanction of the authority that originally recognised them.

240. *Withdrawal of recognition.*—Recognition may be withdrawn by the authority empowered to grant it.

When a school or any of its departments or classes has ceased to fulfil the conditions of recognition or when permission to close has been given, the recognising authority shall withdraw recognition from that school or department or class provided that where recognition is withdrawn as a disciplinary measure the management shall be allowed a full opportunity of explanation. If the defects are capable of immediate or early removal the school authorities shall in the first case be allowed reasonable time, to be fixed by the recognising authority, within which to remedy them, and if they are remedied to the satisfaction of that authority recognition shall not be withdrawn.

Undue laxity in granting promotions, if it continues after due warning, will be considered sufficient reason for the withdrawal of recognition from any school or department which suffers from this defect.

241. *Political activities.*—Recognition is liable to be withdrawn from a school if the management or the staff of the school take part in agitation directed against the authority of Government, or disseminate opinions tending to excite feelings of disloyalty or disaffection against Government or of enmity and hatred between different classes of His Majesty's subjects, or if the pupils are permitted to attend political meetings or to engage in any form of political or communal agitation. Recognition will not be withdrawn under this provision without giving opportunity to the school authority concerned to show cause why recognition should not be withdrawn.

Government reserves to itself the right, anything in the rules of this Code notwithstanding, to refuse or withdraw recognition at its entire discretion.

242. *Restoration of recognition.*—A school or class from which recognition has been withdrawn shall not be restored to that privilege until the recognising authority has been satisfied that the defects which led to the withdrawal of recognition have been removed, and that in all other respects the school or class fulfils the prescribed conditions.

243. *Lapse of recognition.*—If a recognised school or department ceases to exist or if a school is transferred to a different locality, or to a different managing body, or in the case of provisional recognition, the conditions imposed under article 235 of this chapter are not fulfilled at the expiry of the period of provisional recognition, then its recognition will lapse, and for the purposes of future recognition it shall be treated as a new school or department.

244. *Appeal regarding recognition.*—An appeal against an order refusing or withdrawing recognition will in all cases lie to the Director of Public Instruction.

245 *Recognised schools open to all castes and creeds.*—In a recognised school no pupil shall be refused admission on account of his caste or religion. No pupil who has once been admitted to a recognised school shall be treated differentially from the other pupils of the school so as to cause disabilities on account of his caste or religion.

246. *Religious instruction and exercises.*—No pupil of a recognised school shall be compelled to attend a class in which religious instruction is given or take part in any religious exercises if the parent or guardian has formally communicated to the school authorities his wish that the pupil should not be so compelled.

A pupil absenting himself from religious instruction or religious exercises under the above paragraph shall suffer no disability on that account.

No pupil shall be refused admission to a recognised school because exemption from attendance at religious exercises or religious instruction is claimed under this clause. No pupil shall be compelled to attend the school on any day set apart for religious observance by the community or sect to which his parents or guardians belong, nor shall he be compelled to attend school on recognised holidays of his religion, included in the list of gazetted holidays.

Any representation made by guardians under this rule must be in writing.

247. *Liability to inspection.*—Every recognised school with its account books registers and other records shall be open to inspection at all reasonable hours by the authorised officers of the Department, by the executive officers of Government authorised to inspect schools, by the Director or Assistant Director of Public Health and by any Civil Surgeon, Assistant Surgeon or Health Officer deputed by, or acting under, the general orders of Government, to examine the health of the students or the sanitary condition of the buildings and premises.

Appendix XXVI.—Chapter VIII, Article 232 (*iv*).

Rules of Service for employees in recognised schools under private management.

(1) An agreement stating in clear terms the conditions under which a teacher is engaged shall be executed between the teacher on the one side and the school authorities on the other. A draft form of agreement which will serve as a model is given in appendix XXVII.

(2) A copy of each agreement duly executed shall be filed in the school office and shall be available at any time for insp ction by the inspecting officers of the Education Department.

(3) Among other things the agreement shall particularly state—

(*a*) the nature of the post showing whether it is temporary or permanent—in the latter case the period of probation shall be specified ;

(*b*) the initial and maximum pay of the post, and the rate of annual increment ;

(*c*) vacation pay ; and

(*d*) conditions of termination of service.

(4) The agreement may be terminated by either party on giving three months' notice in writing or paying three months' salary in lieu thereof unless the agreement provides for a shorter or longer notice.

(5) The management may dismiss a teacher without notice in the event of such gross misconduct as in the opinion of the management should be brought to the notice of the Department for action under Articles 71 and 180 of the Punjab Education Code. The salary payable in such cases shall be that due up to the day of dismissal.

(6) In case of dismissal the teacher shall before dismissal be called upon to submit his defence in writing for which he shall be given one week from the receipt of the letter calling upon him for his defence, within which he should submit his defence to the management. In the event of such defence not being submitted within the said week, the management may proceed to dismiss him without further delay.

(7) All cases of dismissal shall be reported in the case of men teachers to the Inspector and in that of women teachers to the Circle Inspectress, together with a full statement of the case and a copy of the teacher's defence, if one has been submitted. If the Inspector or the Circle Inspectress disagrees with the decision of the management he or she shall refer the case to the Director of Public Instruction for final decision.

(8) Salaries shall be paid monthly within ten days of the termination of the month for which they are due. No deductions shall be made from salaries except in the following cases :—

(*a*) payment of income-tax ;

(*b*) contributions to or repayment of advances from the provident fund ;

(*c*) payment to a court of law on an attachment order.

(9) Except in cases where teachers are definitely employed in temporary vacancies up to the beginning of the long vacation a teacher who has worked continuously in a school for eight months or more before the long vacation shall be entitled to the full vacation pay ; teachers who have worked for any lesser period shall receive a reduced vacation pay in proportion to the period for which they have served, provided that no teacher who has served for less than three months will be entitled to any vacation pay.

(10) The duties of teachers shall be such as are usual and customary in schools for boys in the Punjab, and shall consist in teaching in class, supervising during play-hours and such other duties as head-master of the school shall, from to time, allot to them. Teachers shall undertake private tuitions or any other duties likely to interfere with their school work without the written permission of the management.

(11) Any disputes that may arise between teachers and management may, at the request of both parties, be referred to the recognising authority whose decision will be final and binding on both the parties.

Appendix XXVII (Chapter VIII, Article 232 (*iv*)).

The agreement contemplated under Article 232 (*iv*), Chapter VIII, Punjab Education Code, need not necessarily be the same in all schools but should contain nothing repugnant to the rules in Appendix XXVI.

It should be noted that Government considers that when a teacher is appointed on probation, the maximum period of such probation should be one year.

The following is a draft form of agreement which will serve as a model :—

AGREEMENT made the day of one thousand nine hundred and BETWEEN (school authority) of the one part and (*teacher*) of the other part.

Whereas the said (school authority) have agreed to engage the said (teacher) to serve the (name of) school at (place) in the capacity of a teacher and at the salary hereinafter mentioned.

NOW THESE PRESENTS WITNESS and the parties hereto do hereby mutually covenant, contract and agree in manner following, that is to say :—

(1) That the said (school authority) shall employ the said (teacher) and the said (teacher) shall serve the said (school authority) as a teacher in the (name) school at (place) from the date of his taking charge of such appointment until such employment shall be determined as hereinafter provided.

That except it be in a purely temporary vacancy the said (teacher) shall be on probation for a period of twelve months from the date of his first taking charge of his appointment during which period it shall be open to the said (school authority) to dispense with his services without giving notice or without assigning any reasons.

(2) That the said (teacher) will employ himself honestly, efficiently and diligently under the orders and instructions of the Head-Master under whom he shall from time to time be placed as teacher in the said (name) school in which capacity he will discharge all such duties appertaining to that office and do all things which may be required of him or which are necessary to be done in his capacity as aforesaid and will make himself in other respects generally useful as may be required of him.

(3) That he will not on any pretence absent himself from his duties without first having obtained the permission of his superior officer authorised in this behalf or in case of sickness or inevitable accident without forwarding a medical certificate satisfactory to the officers aforesaid as may be required by the leave rules of the said school.

(4) That he will devote his whole time to the duties of the said employment and will not on his own account or otherwise either directly or indirectly carry on or be concerned in any trade or business whatsoever without having first obtained the permission of his superior officers authorised in this behalf.

(5) That he will conform to all the rules and regulations in force in the said school inclusive of leave rules—a copy of which is appended—and will obey all such lawful orders and directions as he shall from time to time receive from any authorised officer of the said school.

(6) That this agreement may be terminated at any time by either party on giving to the other three calendar months' notice in writing of such intention to determine the same, or by paying three months' salary in lieu of such notice, provided that (school authority) can dismiss (the teacher) without notice in the event of such gross misconduct as in the opinion of the management should be brought to the notice of the Department for action under Articles 71 and 180 of the Punjab Education Code.

In such a case the teacher before dismissal will be called upon for his defence in writing for which he shall be given one week from the receipt of the letter calling upon him for his defence, within which he should submit his defence to the management. In the event of such defence not being submitted within the said week, the management may proceed to dismiss him without further delay.

(7) That if the said (teacher) shall observe and comply with all the provisions of these presents there shall be paid to him, for such time as he shall be in the service of the said school and actually perform his duties, a salary of Rs. per mensem for the first year of his service, which shall be increased each subsequent year of his service by Rs. per mensem up to a maximum of Rs. , but that in the event of his temporary absence from duty by reason of sickness or leave or otherwise he shall be paid such salary only as shall be determined by the rules in force in the said school.

Provided always that the teacher shall get the full salary or a proportionately reduced amount per month during the long vacation according as he has worked for eight months or more preceding the vacation or a shorter period, provided further that the teacher shall not be entitled to any vacation pay if he has served for less than three months.

(8) That it shall be lawful for the school authority at any time if satisfied on medical evidence that the said teacher is unfit and is likely for a considerable period to continue unfit by reasons of ill-health for the discharge of his duties as such teacher to determine his service under these presents on paying him three months' salary less any amount which may have been paid him as leave allowance after the date of his last appearance in the school for the regular discharge of his duties as teacher (the decision of the school authority as to the unfitness of the teacher being final and conclusive) and thereupon his service shall absolutely cease and determine.

IN WITNESS whereof and have hereunto set their hands the day and year first above written.

" Compensation is not admissible where, as a matter of ordinary prudence, the owner of the property could and should have insured it. The question whether the property ought to have been insured is one of fact for the decision of the sanctioning authority. Failure to insure motor cars by their owners will, however, be considered as negligence within the meaning of this rule and no compensation is admissible for any loss sustained by a Government servant who has omitted to insure his car. The kind of insurance contemplated in this case is the ordinary form of insurance which most motorists, take out—the kind which an officer who buys a car with an advance from Government is required to take out. The ordinary policy provides fully against malicious damage, fire or theft, and it is not considered necessary that Government servants should cover their cars against any but the risks provided against in ordinary insurance policies,

NOTE.—In cases where a house is allotted to an officer whose emoluments are below the range prescribed in column 5 of the statement the concurrence of the Finance Department should be obtained before such confirmation.

2. Houses will ordinarily be allotted to officers for whom they were primarily intended (as shown in column 5 of the statement), but the Committee may use their discretion in the matter.

3. Migratory officers shall have a prior claim to houses of the "Winter" class and non-migratory to the "Permanent" class.

NOTE.—Allotment of a house of the "Permanent" class may be made to migratory officers only if no eligible non-migratory officer applies for it.

4. (*i*) he so desires ;

(*ii*) he certifies in his application that his family as detailed in his original application will continue to reside with him ;

(*iii*) the original allotment was made at the time of the general allotment as contemplated in Rule 4 above and not thereafter, and

(*iv*) the officer is still eligible under column 5 of the statement for the type of house he occupies, *i.e.*, that his emoluments still remain within the range specified.

No officer will retain a lien on the house allotted to him for more than two years, after which it will automatically revert to the general pool.

NOTE.—This rule may, however, be departed from in exceptional cases where in the opinion of the House Allotment Committee, there are sufficient reasons for so doing.

6. The Committee will pay due regard to the following considerations :—

(*a*) Officers with their wives shall be preferred to those without.

(*b*) Officers with their children shall be preferred to those without, the number of children being taken into consideration. Only the unmarried and dependent children will count for purposes of this rule.

(*c*) As between officers (*a*) and (*b*) those drawing the least pay shall be preferred within the categories of column 5 of the statement.

7. The allotment of a house shall extend from October to the following September, but allotment to migratory officers is governed by rule 410 (*ii*) of the Punjab Financial Handbook No. 2, volume II.

8. Except for cogent reasons such as transfers or other cause beyond the allottee's control, no allottee shall be allowed to surrender the house allotted to him for the next following season after the 1st June.

To

His Excellency the Governor,

In *re*:

Sh. Lekhwati, wife of Lala Summat Prasada, Pleader, Ambála City,—

Petitioner,

versus

(1) Mr. Tek Chand, Bar.-at-Law, son of Lala Duni Chand, Lahore;

(2) Rai Bahadur Lala Panna Lal, Proprietor, Upper India Glass Works, Ambála City,—Respondents.

The humble petition of Sh. Lekhwati, under Rule 32 I (a) and Rule 44 I (c) of the Punjab Electoral Rules,

Respectfully showeth:—

1. Your petitioner Sh. Lekhwati was a candidate for election to the Punjab Legislative Council on behalf of the north-east towns (Non-Muhammadan) Urban constituency in the bye-election, 1933.

2. The said bye-election was held on the 9th and 10th days of March, 1933 A. D., when respondents Nos. 1 and 2 were the contesting candidates and Mr. F. Meehan, P.C.S., the Returning Officer has returned respondent No. 1 as being duly elected and his name has been published in the *Punjab Government Gazette*, dated 17th March 1933.

3. The nomination papers of your petitioner were duly filed on the 27th of February 1933, and were in all respects and particulars good and valid. But these nomination papers were wrongly rejected on 28th February 1933 (the scrutiny-day) by the aforesaid Returning Officer on the ground that a female was ineligible to stand as a candidate under Rule 5 I (b) of Punjab Electoral Rules, on the objection of respondent No. 1. The said objection was wholly untenable in Law as the sex disqualification contained in Rule 5 I (b) was removed by the Punjab Government notification No. 5009-L., Home Department (Elections), dated 28th October 1926.

4. The respondent No. 1 and Lala Duni Chand, his father (his election agent) knew it very well that such objection could not be raised, but still they persisted and got the nomination paper of the petitioner rejected.

5. The result of the election has been materially affected by the improper refusal of the petitioner's nomination paper.

6. On the facts disclosed above, it is humbly prayed that the election of the returned candidate respondent No. 1 be declared void, and the order rejecting the petitioner's nomination paper be set aside and the petitioner be allowed suitable costs and such further additional reliefs as the circumstances of the case may require.

NOTE.—In accordance with rule 35 of the Punjab Electoral Rules, a sum of Rs. 1,000 cash is deposited herewith.

Verification.

Paragraphs Nos. 1 to 4 of the above petition are true to petitioner's knowledge, and the petitioner believes the contents of paragraph No. 5 to be true.

(Sd.). LEKHWATI,
Petitioner.

INDUSTRIES AND LABOUR DEPARTMENT.

The 1st June 1933.

No. 15730.—In exercise of the powers conferred by section 6 of the Sugar Industry (Protection) Act, 1932, The Punjab Government (Ministry of Local Self-Government) is pleased to make the following rules under the said Act :—

1. These rules may be called " The Punjab Sugar Industry Protection Rules."

2. The owner of every sugar factory shall post notices on the morning of the first and fifteenth days of every month during the cane purchasing season at each entrance to the factory and in such conspicuous places, if any, near any such entrance as the Director of Industries, Punjab, may in each case appoint, containing the following information :—

(*i*) The current rate of cane, delivered at the factory.

(*ii*) The average fortnightly price of Java white sugar in the Amritsar market for the fortnights ending on the 7th and 21st days of each month, and

(*iii*) The price of cane worked out according to the sliding scale described hereinafter, on the basis of the Amritsar price and the previous year's extraction.

3. The sliding scale for a particular factory shall be calculated by the following formula, on the assumption that the price of a maund (82·3 lbs.) of cane shall be equal to half the price of sugar made therefrom (on the basis of the Amritsar price of Java white sugar and the previous year's extraction of sugar per cent. cane for that factory) :—

$$C = \cdot08 \times S \times P$$

where—

C = price of cane for purposes of the sliding scale (in annas per maund) delivered at the factory gate, including transport charges, dryage, commission and supervision charges.

S = average extraction of sugar per cent. cane for the factory during the previous working season, and

P=average fortnightly price in rupees per maund, as announced by the Director of Industries in the *Punjab Government Gazette* and the Director-General of Commercial Intelligence and Statistics in the *Indian Trade Journal*, of Java white sugar at Amritsar during the immediate preceding fortnight, ending on the 7th or the 21st day of the month. Provided, however, that the price of cane (that is, the value of C in the above formula) shall not be below five annas per maund whatever the price and the extraction of sugar may be.

Example 1.—The average extraction of sugar in Factory A during the cane season 1931-32 was 9·35 per cent. and the average Amritsar price of Java white sugar during the fortnight ending 7th February, 1933, is Rs. 10 4 6 per maund.

The price of cane to be shown in the cane rate notice during the period from the 15th February to the 28th February, 1933, shall be ·08×9·35×10·9/32 annas or seven annas six pies per maund.

Example 2.—Factory B had an extraction of 5·5 per cent. during 1931-32. The price of cane according to the formula, for the period from 15th February to the 28th February 1933, shall be ·08 × 5·5 × 10·9/32 annas or 4·77 annas. As this figure is below the minimum of 5 annas per maund the price to be shown in the cane rate notice shall be five annas.

4. The cane rate notice shall be in English in the form attached to the rules, a translation of which shall also be issued in Hindi, Urdu and Gurmukhi.

5. (*a*) An owner of the factory who fails to post the notices required by rule 2 in the manner required therein shall be punishable with a fine which may extend to rupees five hundred.

(*b*) An owner of a factory who contravenes the provisions of rule 4 shall be punishable with a fine which may extend to rupees fifty.

(*c*) No complaint of an offence under these rules shall be instituted save with the previous sanction of the District Magistrate of the district in which the factory is situated; and no magistrate other than a Magistrate of the 1st class shall have power to try such offence.

PART I.

Punjab Government Notifications and Orders.

LEGISLATIVE DEPARTMENT.

The 13th July 1933.

No. 142.—The Punjab Tenancy (Amendment) Bill is published under rule 18 of the Punjab Legislative Council Rules for general information :—

A Bill further to amend the Punjab Tenancy Act, 1887.

Preamble.

WHEREAS it is expedient further to amend the Punjab Tenancy Act, 1887, in the manner hereinafter appearing, it is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Punjab Tenancy (Amendment) Act, 193 .

(*2*) It shall come into force on such date as the Local Government may by notification appoint in this behalf.

Amendment of section 69 of the Punjab Tenancy Act, 1887.

2. After sub-section (*2*) of section 69 of the Punjab Tenancy Act, 1887, the following proviso shall be inserted, namely :—

" Provided that in any estate of which the assessment has been confirmed on or after the twenty-second day of February 1929, the compensation may be computed as if four times the amount of the land revenue of the land were the annual rent thereof."

STATEMENT OF OBJECTS AND REASONS.

Section 69 of the Punjab Tenancy Act (Act XVI of 1887), which lays down rule for compensation for disturbance of clearing tenants, provides in sub-section (2) that in certain circumstances compensation may be computed as if double the amount of the land revenue of the land were the annual rent thereof. This provision had reference to times when the normal standard of assessment was half the net assets—a condition of affairs which has been brought to an end by section 48 (*b*) of the Act as introduced by Act III of 1928, which puts as the limit of assessment one-fourth of the estimated money value of the net assets.

The result of this change is to make it necessary to provide that in cases to which the new Act applies, *i.e.*, estates in which the assessment has been confirmed on or after the 22nd day of February 1929, the compensation should be computed as if four times the amount of the land revenue of the land were the annual rent thereof, and provision has been made in the Bill accordingly.

FINANCE DEPARTMENT.

GENERAL.

The 13th July 1933.

No. 18992.—In exercise of the powers conferred by rules 41, 42 and 44 of the Civil Services (Classification, Control and Appeal) Rules and in supersession of all existing rules and orders relating to special or contributory provident funds maintained by Government for non-pensionable servants of Government belonging to provincial and subordinate services and holding any of the special posts under the control of the Punjab Government, the Governor in Council and the Governor acting with his Ministers hereby make the following rules with the previous sanction of the Governor-General in Council :—

PUNJAB CONTRIBUTORY PROVIDENT FUND RULES.

Short Title and Definitions.

1. (1) These rules may be called the Punjab Contributory Provident Fund Rules.

(2) They shall come into force on the 1st August 1933.

2. (1) In these rules, unless there is anything repugnant in the subject or context :—

(*i*) *Account Officer* means the Accountant-General, Punjab.

(*ii*) *Emoluments* means pay, leave-salary, or subsistence grant, as defined in the Fundamental Rules, and includes—

(*a*) sterling overseas pay converted at such rate of exchange as the Secretary of State in Council may prescribe in this behalf ;

(*b*) any wages paid by Government to employees not remunerated by fixed monthly pay ; and

(*c*) any remuneration of the nature of pay received in respect of foreign service ;

(*iii*) *Family* means the wife or wives and children of a subscriber and the widow, or widows, and children of a deceased son of the subscriber ; an adopted child shall be considered to be a child when the Account Officer or, if any doubt arises in the mind of the Account Officer, the Legal Remembrancer to Government, Punjab, is satisfied that, under the personal law of the subscriber, adoption is legally recognised as conferring the status of a natural child, but in this case only ;

(*iv*) *Leave* means any variety of leave recognized by the Fundamental Rules or the Civil Service Regulations, whichever may be applicable to the subscriber ;

(*v*) *The Fund* means the Punjab Contributory Provident Fund ; and

(*vi*) *Year* means a financial year.

(2) Any other expression employed in these rules which is defined in the Fundamental Rules is used in the sense therein defined.

Constitution and management of the Fund.

3. The Fund shall be administered by the Punjab Government and shall be maintained in India in rupees.

4. (1) These rules shall apply to every non-pensionable servant of Government belonging to provincial and subordinate services and holding any of the special posts under the control of the Punjab Government, who —

(*a*) has been admitted before these rules came into force to the benefits of a special or contributory provident fund maintained by Government ; or

(*b*) may be admitted by Government to the Fund after these rules come into force :

Provided that these rules shall not apply to any such servant between whom and Government an agreement subsists in respect of a provident fund, other than an agreement providing for the application to him of these rules, and, in the case of an agreement so providing, shall apply subject to the terms of such agreement :

A Provided further that these rules shall not apply to temporary Government servants engaged for specific work or for a definite period. But where any such servant is ultimately made permanent in the post to which he was originally appointed under conditions where, had he been in the ordinary line, his temporary service would have counted for pension under articles 370 of the Civil Service Regulations, these rules may be applied to him from the original date of his appointment subject to the condition that the amount which Government would have contributed to his provident fund, had he been a subscriber to it from the beginning, will only be paid to the credit of his provident fund account if the Government servant himself is prepared to add to the account his own share of the proper subscription for the same period.

B (2) Every servant of Government to whom these rules apply shall be a subscriber to the Fund.

(3) The balance at the credit of any servant of Government in any such Fund as is referred to in clause (*a*) of sub-rule (1) shall, with effect from the date on which these rules come into force, be transferred to his credit in the Fund.

Nomination.

5. (1) The Account Officer shall, as soon as may be, require every subscriber to make a nomination conferring the right to receive the amount that may stand to his credit in the Fund in the event of his death before quitting the service.

(2) A subscriber who, at the time of joining the Fund, has a family shall send to the Account Officer a nomination in the Form set forth in the First Schedule in favour of one or more members of his family.

(3) A subscriber who has no family may similarly nominate a person or persons in the Form set forth in the Second Schedule :

Provided that a nomination made under this sub-rule shall be deemed to have been duly made in accordance with these rules only for so long as the subscriber has no family.

(4) If a subscriber at any time acquires a family, he shall send to the Account Officer a nomination as provided in sub-rule (2) and, if he has under sub-rule (3) nominated any person other than a member of his family, he shall formally cancel the previous nomination.

(5) A subscriber may in his nomination distribute the amount that may stand to his credit in the Fund amongst his nominees at his own discretion.

(6) A nomination may be cancelled by a subscriber and replaced by any nomination which is permitted to be made under this rule.

Subscribers' accounts.

6. An account shall be opened in the name of each subscriber, in which shall be credited—

(*i*) the subscriber's subscriptions ;

(*ii*) contributions made under rule 10 by Government to his account ;

(*iii*) interest, as provided by rule 11, on subscriptions ; and

(*iv*) interest, as provided by rule 11, on contributions.

Conditions and Rates of Subscriptions.

7. (1) Every subscriber shall subscribe monthly to the Fund when on duty or foreign service.

(2) A subscriber may, at his option, subscribe during leave.

(3) The option of a subscriber under sub-rule (2) shall be intimated to the Account Officer before the subscriber proceeds on leave and shall be final.

8. (1) The amount of subscriptions shall be fixed by the subscriber himself, subject to the following conditions :—

(*a*) It shall be expressed in whole rupees.

(*b*) (*i*) It may be any sum, so expressed, not less than $6\frac{1}{4}$ per cent. of emoluments (*i. e.*, one anna in the rupee) and not more than 15 5/8 per cent. (*i. e.*, $2\frac{1}{2}$ annas in the rupee).

(*ii*) Emoluments for the purposes of this rule shall be calculated at the rate payable in respect of the 31st March of the preceding year :

Provided that, if the subscriber is on leave or under suspension on the 31st March of the preceding year, his emoluments shall be calculated at the rate payable in respect of the first day after his return to duty :

Provided also that, if the subscriber is on deputation out of India on the 31st March of the preceding year, his emoluments shall be calculated at the rate which would have been payable had he been on duty in India :

Provided also that, if the emoluments of the subscriber are of a fluctuating nature, they shall be calculated in such manner as the Punjab Government may direct.

(2) The subscriber shall intimate the fixation of the amount of his monthly subscription in each year in the following manner :—

(*a*) if he is on duty on the 31st March of the preceding year, by the deduction which he makes in this behalf from his pay bill for that month ;

(b) if he is on leave or under suspension on the 31st March of the preceding year, by the deduction which he makes in this behalf from his first pay bill after his return to duty ;

(c) if he is on foreign service on the 31st March of the preceding year, by written intimation to the Account Officer before the 1st April of the current year ;

(d) if his emoluments are of the nature referred to in the third proviso to sub-rule (1), in such manner as the Punjab Government may direct.

(3) If the amount of subscription payable contains a fraction of a rupee, it shall be rounded to the nearest whole rupee (eight annas counting as the next higher rupee).

(4) The amount of subscription so fixed shall remain unchanged throughout the year :

Provided that if a subscriber is on duty for a part of a month and on leave for the remainder of that month, and if he has elected not to subscribe during leave, the amount of the subscription payable shall be proportionate to the number of days spent on duty in the month.

Realisation of Subscriptions.

9. (1) When emoluments are drawn from a Government treasury in India or from the Home or a Colonial treasury, recovery of subscriptions on account of these emoluments and of the principal and interest of advances shall be made from the emoluments themselves ; except that, when emoluments other than sterling overseas pay are so drawn in India, deductions in respect of sterling overseas pay, when admissible, shall be made in India.

(2) When emoluments are drawn from any other source the subscriber shall forward his dues monthly to the Account Officer.

Contribution by Government.

10. (1) Government shall, with effect from the 31st March of each year, make a contribution to the account of each subscriber :

Provided that if a subscriber quits the service or dies during a year, contribution shall be credited to his account for the period between the close of the preceding year and the date of the casualty.

(2) The contribution shall be such percentage of the subscriber's emoluments drawn on duty during the year or the period as the case may be as has been or may be prescribed by Government by general or special order.

(3) If a subscriber is on deputation out of India, the emoluments which he would have drawn had he been on duty in India shall, for the purposes of this rule, be deemed to be emoluments drawn on duty.

(4) Should a subscriber elect to subscribe during leave, his leave salary shall, for the purposes of this rule, be deemed to be emoluments drawn on duty unless otherwise directed by Government.

(5) The amount of any contribution payable in respect of a period of foreign service shall, unless it is recovered from the foreign employer, be recovered by Government from the subscriber.

(6) The amount of contribution payable shall be rounded to the nearest rupee in the manner provided in sub-rule (3) of rule 8.

Interest.

11. (1) Government shall pay to the credit of the account of a subscriber interest, at such rate as the Governor-General in Council may from time to time prescribe for the payment of interest on subscriptions to the General Provident Fund, on the amount at his credit in the Fund.

(2) Interest shall be credited with effect from the 31st March of each year in the following manner :—

(i) on the amount at the credit of a subscriber on the 31st March of the preceding year, less any sums withdrawn during the current year—interest for twelve months ;

(ii) on sums withdrawn during the current year—interest from the 1st April of the current year up to the last day of the month preceding the month of withdrawal ;

(*iii*) on all sums credited to the subscriber's account after the 31st March of the preceding year—interest from the date of deposit up to the 31st March of the current year ;

(*iv*) the total amount of interest shall be rounded to the nearest rupee in the manner provided in sub-rule (3) of rule 8.

(3) For the purposes of this rule the date of deposit shall, in the case of recoveries from emoluments, be deemed to be the first day of the month in which they are recovered ; and, in the case of amounts forwarded by the subscriber, shall be deemed to be the first day of the month of receipt, if they are received by the Account Officer before the fifth day of that month, or, if they are received on or after the fifth day of that month, the first day of the next succeeding month.

(4) In addition to any amount to be paid under rule 27, interest thereon up to the end of the month preceding that in which payment is made, or up to the end of the sixth month after the month in which such amount became payable, whichever of these period be less, shall be payable to the person to whom such amount is to be paid :

Provided that no interest shall be paid in respect of any period after the date which the Account Officer has intimated to that person (or his agent) as the date on which he is prepared to make payment in cash, or if he pays by cheque, after the date on which the cheque in that person's favour is put in the post.

(5) Interest shall not be credited to the account of a Muhammadan subscriber if he informs the Account Officer that he does not wish to receive it ; but if he subsequently asks for interest, it shall be credited with effect from the 1st April of the year in which he asks for it.

(6) The interest on amounts which, under sub-rule (3) of rule 17, or sub-rule (3) of rule 19, or sub-rule (1) of rule 20 or sub-rule (1) or sub-rule (2) of rule 21 or rule 23 or rule 24 are replaced at the credit of the subscriber in the Fund, shall be calculated at such rates as may be successively prescribed under sub-rule (1) of this rule and so far as may be in the manner described in this rule.

Advances from the Fund.

12. (1) A temporary advance may be granted to a subscriber from the amount standing to his credit in the Fund at the discretion of the authority specified in sub-rule (2), subject to the following conditions—

(*a*) the subscriber shall satisfy that authority of the necessity for the advance ;

(*b*) that authority shall record in writing its reasons for granting the advance ; and

(*c*) the advance shall not, except for reasons to be recorded in writing by that authority, exceed three months' pay ; and shall in no case exceed the amount of subscriptions and interest thereon standing to the credit of the subscriber in the Fund at the time when the advance is granted.

(2) The authority competent to grant an advance—

(*a*) (*i*) exceeding three months' pay, or

(*ii*) within twelve months of the final repayment of all previous advances together with interest thereon,

shall be the authority competent to dismiss the subscriber ; or in the case of a subscriber appointed by the Secretary of State in Council, the Punjab Government.

(*b*) in any case not specified in clause (*a*) shall be the authority competent to pass censure on the subscriber.

13. An advance shall not, except for special reasons to be recorded in writing by the sanctioning authority, be granted under rule 12 until at least twelve months after the final repayment of all previous advances together with interest thereon.

14. (1) An advance shall be recovered from the subscriber in such number of equal monthly instalments as the sanctioning authority may direct ; but such number shall not be less than twelve unless the subscriber so elects, or in any case more than twenty-four. A subscriber may, at his option, make repayment in a smaller number of instalments than that prescribed. Each instalment shall be a number of whole rupees, the amount of the advance being raised or reduced, if necessary, to admit of the fixation of such intalments.

(2) Recovery shall be made in the manner provided in rule 9 for the realisation of subscriptions and shall commence on the first occasion after the advance is made on which the subscriber draws pay, or remuneration on foreign service, for a full month. Recovery shall not be made while the subscriber is on leave or in receipt of subsistence grant, and may be postponed by the sanctioning authority during the recovery of an advance of pay granted to the subscriber.

(3) If more than one advance has been made to a subscriber, each advance shall be treated separately for the purpose of recovery.

(4) (*a*) After the principal of the advance has been fully repaid, interest shall be paid thereon at the rate of one-fifth per cent. of the principal for each month or broken portion of a month during the period between the drawal and complete repayment of the principal.

(*b*) Interest shall ordinarily be recovered in one instalment in the month after complete repayment of the principal ; but, if the period referred to in clause (*a*) exceeds twenty months, interest may, if the subscriber so desires, be recovered in two equal monthly instalments. The method of recovery shall be that provided in sub-rule (2). Payments shall be rounded to the nearest rupee in the manner provided in sub-rule (3) of rule 8.

(5) Recoveries made under this rule shall be credited, as they are made, to the account of the subscriber in the Fund.

Payment towards Insurance Policies and Family Pension Funds.

15. (1) Subject to the conditions contained in rules 16 to 22—

(*a*) (*i*) subscriptions to a family pension fund approved in this behalf by the Governor in Council,

(*ii*) payments towards an insurance policy

may, at the option of a subscriber, be substituted for the whole or part of subscriptions to the Fund ;

(*b*) the amount of subscriptions with interest thereon standing to the credit of a subscriber in the Fund may be withdrawn to meet—

(*i*) payments towards an insurance policy,

(*ii*) purchase of a single payment insurance policy ;

(*iii*) payment of single premia or subscriptions to a family pension fund approved in this behalf by the Governor in Council ;

Provided that no amount shall be withdrawn to meet any payment or purchase made or effected more than twelve months before the withdrawal ;

(*c*) any amount withdrawn under clause (*b*) shall be paid in whole rupees only rounded to the nearest rupee in the manner provided in sub-rule (3) of rule 8.

16. (1) If the total amount of any subscriptions or payments substituted under clause (*a*) of rule 15 is less than the amount of the minimum subscription payable to the Fund under rule 8, the difference shall be rounded off to the nearest rupee in the manner provided in sub-rule (3) of rule 8 and paid by the subscriber as a subscription to the Fund.

(2) If the subscriber withdraws any amount standing to his credit in the Fund for any of the purposes specified in clause (*b*) of rule 15, he shall, subject to his option under clause (*a*) of that rule, continue to pay to the Fund the subscription payable under rule 8.

17. (1) A subscriber who desires to substitute a subscription or payment under clause (*a*) of rule 15 may reduce his subscription to the Fund accordingly :

Provided that the subscriber shall—

(*a*) intimate to the Account Officer on his pay bill or by letter the fact of, and reason for, the reduction ;

(*b*) send to the Account Officer, within such period as the Account Officer may require, receipts or certified copies of receipts in order to satisfy the Account Officer that the amount by which the subscription has been reduced was duly applied for the purposes specified in clause (*a*) of rule 15.

(2) A subscriber who desires to withdraw any amount under clause (*b*) of rule 15 shall—

(*a*) intimate the reason for the withdrawal to the Account Officer by letter ;

(*b*) make arrangements with the Account Officer for the withdrawal ;

(*c*) send to the Account Officer, within such period as the Account Officer may require, receipts or certified copies of receipts in order to satisfy the Account Officer that the amount withdrawn was duly applied for the purposes specified in clause (*b*) of rule 15.

(3) The Account Officer shall order the recovery of any amount by which subscriptions have been reduced, or any amount withdrawn, in respect of which he has not been satisfied in the manner required by clause (*b*) of sub-rule (1) and clause (*c*) of sub-rule (2), with interest thereon at the rate provided in rule 11, from the emoluments of the subscriber and place it to the credit of the subscriber in the Fund.

18. (1) Government will not make any payments on behalf of subscribers to insurance companies, nor take steps to keep a policy alive.

(2) It is immaterial what form the policy takes, provided that it shall be on the life of the subscriber himself and shall (unless it is a policy expressed on the face of it to be for the benefit of his wife, or of his wife and children, or any of them) be such as may be legally assigned by the subscriber himself to the Secretary of State in Council.

EXPLANATION.—A policy on the joint lives of the subscriber and his wife shall be deemed to be a policy on the life of the subscriber himself for the purpose of this sub-rule.

(3) The policy may not be effected for the benefit of any beneficiary other than the wife of the subscriber or his wife and children or any of them.

19. (1) The policy, within three months after the first withholding of a subscription or withdrawal from the Fund in respect of the policy, or, in the case of an insurance company whose headquarters are outside India, within such further period as the Account Officer, if he is satisfied by the production of the completion certificate (*interim* receipt), may fix, shall—

(*a*) unless it is a policy expressed on the face of it to be for the benefit of the wife of the subscriber, or of his wife and children, or any of them, be assigned to the Secretary of State in Council, as security for the payment of any sum which may become payable to the Fund under rules 20 to 22, and delivered to the Account Officer, the assignment being made by endorsement on the policy in Form (1) or Form (2) of the Forms in the Third Schedule according as the policy is on the life of the subscriber or on the joint lives of the subscriber and his wife.

(*b*) if it is a policy expressed on the face of it to be for the benefit of the wife of the subscriber, or of his wife and children, or any of them, be delivered to the Account Officer.

(2) The Account Officer shall satisfy himself by reference to the insurance company where possible, that no prior assignment of the policy exists.

(3) If the policy is not assigned and delivered, or delivered, within the said period of three months or such further period as the Account Officer may, under sub-rule (1), have fixed, any amount withheld or withdrawn from the Fund in respect of the policy shall, with interest thereon at the rate provided in rule 11, forthwith be paid or repaid, as the case may be by the subscriber, to the Fund, or, in default be ordered by the Account Officer to be recovered by deduction from the emoluments of the subscriber, by instalments or otherwise, as Government may direct.

(4) Notice of assignment of the policy shall be given by the subscriber to the insurance company, and the acknowledgment of the notice by the insurance company shall be sent to the Account Officer within three months of the date of assignment.

NOTE 1.—A subscriber who is required to assign his policy to the Secretary of State in accordance with clause (*a*) of sub-rule (1) may execute the prescribed form of assignment on the policy itself either in his own handwriting or in type or alternatively paste on the blank space provided for the purpose on the policy a typed or printed slip containing the endorsement. A typed or printed endorsement must be duly signed and if pasted on the policy initialled across all four margins.

NOTE 2.—Subscribers are advised to send notice of the assignment to the insurance company in duplicate, accompanied, in cases in which the notice has to be sent to a company in Great Britain or Ireland, by a remittance of five shillings, which is the fee for the acknowledgment authorised by the Policies of Assurance Act, 1867. The policy itself, bearing the assignment endorsed thereon, need not be sent to the Company, as insurance companies do not ordinarily require the production of the original instruments affecting a policy-holder's title until the policy becomes a claim.

NOTE 3.—Subscribers who proceed to Great Britain or Ireland on quitting the service are advised that under the English Stamp Law assignments or re-assignments are required to be stamped within 31 days of their first arrival in those countries. Otherwise penalty will be incurred under the Stamp Act, and difficulties may arise when the policy matures for payment.

19-A. The subscriber shall not during the currency of the policy draw any bonus the drawal of which during such currency is optional under the terms of the policy, and the amount of any bonus which under the terms of the policy the subscriber has no option to refrain from drawing during its currency shall be paid forthwith into the Fund by the subscriber or in default recovered by reduction from his emoluments by instalments or otherwise as the Governor in Council may direct.

20. (1) Save as provided by sub-rule (3) of rule 22, when the subscriber—

(a) quits the service, or

(b) has proceeded on leave preparatory to retirement and applies to the Account Officer for re-assignment or return of the policy, or

(c) while on leave, has been premitted to retire or declared by competent medical authority to be unfit for further service and applies to the Account Officer for re-assignment or return of the policy, or

(d) pays or repays to the Fund the whole of any amount withheld or withdrawn from the Fund for any of the purposes mentioned in sub-clause (ii) of clause (a) of rule 15 and sub-clauses (i) and (ii) of clause (b) of rule 15 with interest thereon at the rate provided in rule 11,

the Account Officer shall—

(i) if the policy has been assigned to the Secretary of State in Council under rule 19, re-assign the policy in the first Form set forth in the Fourth Schedule to the subscriber or to the subscriber and the joint assured as the case may be within one month from the date of application of the subscriber and make it over to the subscriber together with the signed notice of the re-assignment addressed to the Insurance Company.

(ii) if the policy has been delivered to him under clause (b) of sub-rule (1) of rule 19, make over the policy to the subscriber :

Provided that, if the subscriber, after proceeding on leave preparatory to retirement or after being, while on leave, permitted to retire or declared by competent medical authority to be unfit for further service, returns to duty, any policy so re-assigned or made over shall, if it has not matured or been assigned or charged or encumbered in any way, be again assigned to the Secretary of State in Council and delivered to the Account Officer, or again be delivered to the Account Officer, as the case may be, in the manner provided in rule 19, and thereupon the provisions of these rules shall, so far as may be, again apply in respect of the policy.

Provided further that, if the policy has matured or been assigned or charged or encumbered in any way, the provisions of sub-rule (3) of Rule 19 applicable to a failure to assign and deliver a policy shall apply.

(2) Save as provided by sub-rule (3) of rule 22, when the subscriber dies before quitting the service, the Account Officer shall—

(i) if the policy has been assigned to the Secretary of State in Council under rule 19, re-assign the policy in the second Form set forth in the Fourth Schedule to such person as may be legally entitled to receive it, and shall make over the policy to such person together with a signed notice of the re-assignment addressed to the Insurance Company.

(ii) if the policy has been delivered to him under clause (b) of sub-rule (1) of rule 19, make over the policy to the beneficiary, if any, or, if there is no beneficiary, to such person as may be legally entitled to receive it.

21. (1) If a policy assigned to the Secretary of State in Council under rule 19 matures before the subscriber quits the service, and before his death, or if a policy on the joint lives of a subscriber and his wife, assigned under the said rule, falls due for payment by reason of the wife's death, the Account Officer shall, save as provided by sub-rule (3) of rule 22, proceed as follows :—

(i) if the amount assured together with the amount of any accrued bonuses is greater than the whole of the amount withheld or withdrawn from the Fund in respect of the policy with interest thereon at the rate provided in rule 11, the Account Officer shall re-assign the policy in the form set forth in the Fifth Schedule to the subscriber or to the subscriber and the joint assured as the case may be, and make it over to the subscriber, who shall pay or repay to the Fund the whole of any amount withheld or withdrawn with interest, and in default, the provisions of sub-rule (3) of rule 19 applicable to a failure to assign and deliver a policy shall apply ;

(ii) if the amount assured together with the amount of any accrued bonuses is less than the whole of the amount withheld or withdrawn with interest, the Account Officer shall realise the amount assured together with any accrued bonuses and shall place the amount so realised to the credit of the subscriber in the Fund.

(2) Save as provided by sub-rule (3) of rule 22, if a policy delivered to the Account Officer under clause (b) of sub-rule (1) of rule 19 matures before the subscriber quits the service and before his death, the Account Officer shall make over the policy to the subscriber ;

Provided that if the interest in the policy of the wife of the subscriber, or of his wife and children, or any of them, was a contingent interest which expired when the policy matured the subscriber shall pay or repay to the Fund either—

(i) the whole of any amount withheld or withdrawn from the Fund in respect of the policy with interest thereon at the rate provided in rule 11,

or

(ii) an amount equal to the amount assured together with any accrued bonuses, whichever is less, and, in default, the provisions of sub-rule (3) of rule 19 applicable to a failure to assign and deliver a policy shall apply.

22. (1) If the interest of the subscriber in the family pension fund ceases in whole or part from any cause whatsoever, the provident fund account of the subscriber shall forthwith be reimbursed by the amount of the refund, if any, secured by the subscriber from the family pension fund.

(2) If the policy lapses or becomes assigned otherwise than to the Secretary of State in Council, under rule 19, charged or encumbered, the provisions of sub-rule (3) of rule 19 applicable to a failure to assign and deliver a policy shall apply.

(3) If the Account Officer receives notice of—

(a) an assignment (other than an assignment to the Secretary of State in Council under rule 19), or

(b) a charge or encumbrance on, or

(c) an order of a Court restraining dealings with—

the policy or any amount realised thereon, the Account Officer shall not—

(i) re-assign or make over the policy as provided in rule 20, or

(ii) realise the amount assured by the policy, or assign or make over the policy, as provided in rule 21,

but shall forthwith refer the matter to the Punjab Government.

Circumstances in which Accumulations are payable.

23. When a subscriber quits the service, the amount standing to his credit in the Fund shall, subject to any deduction under rule 26, become payable to him :

Provided that a subscriber, who has been dismissed from the service and is subsequently reinstated in the service, shall, if required to do so by Government, repay any amount paid to him from the Fund in pursuance of this rule, with interest thereon at the rate provided in rule 11 in the manner provided in the proviso to rule 24. The amount so repaid shall be credited to his account in the Fund, the part which represents his subscriptions and interest thereon, and the part which represents the Government contribution with interest thereon, being accounted for in the manner provided in rule 6.

24. When a subscriber—

(a) has proceeded on leave preparatory to retirement or, if he is employed in a vacation Department, on leave preparatory to retirement combined with vacation, or

(b) while on leave, has been permitted to retire or declared by a competent medical authority to be unfit for further service,

the amount of subscriptions and interest thereon standing to his credit in the Fund shall upon application made by him in that behalf to the Account Officer, become payable to the subscriber :

Provided that the subscriber, if he returns to duty, shall, if required to do so by Government, repay to the Fund, for credit to his account, the whole or part of any amount paid to him from the Fund in pursuance of this rule, with interest thereon at the rate provided in rule 11 in cash or securities, or partly in cash and by partly in securities, by instalments or otherwise, by recovery from his emoluments or otherwise, as Government may direct.

25. Subject to any deduction under rule 26, on the death of a subscriber before quitting the service—

(*i*) when the subscriber leaves a family—

(*a*) if a nomination made by the subscriber in accordance with the provisions of rule 5 in favour of a member or members of his family subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates, shall become payable to his nominee or nominees in the proportion specified in the nomination ;

(*b*) if no such nomination in favour of a member or members of the family of the subscriber subsists, or if such nomination relates only to a part of the amount standing to his credit in the Fund, the whole amount or the part thereof to which the nomination does not relate, as the case may be, shall, notwithstanding any nomination purporting to be in favour of any person or persons other than a member or members of his family, become payable to the members of his family in equal shares :

Provided that no share shall be payable to—

(1) sons who have attained legal majority ;

(2) sons of a deceased son who have attained legal majority ;

(3) married daughters whose husbands are alive ;

(4) married daughters of a deceased son whose husbands are alive ;

if there is any member of the family other than those specified in clauses (1), (2), (3) and (4) :

Provided also that the widow or widows and the child or children of a deceased son shall receive between them in equal parts only the share which that son would have received if he had survived the subscriber ;

NOTE.—Any sum payable under these rules to a member of the family of a subscriber vests in such member under sub-section (2) of section 3 of the Provident Funds Act, 1925.

(*ii*) when the subscriber leaves no family, if a nomination made by him in accordance with the provisions of rule 5 in favour of any person or persons subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates, shall become payable to his nominee or nominees in the proportion specified in the nomination.

NOTE 1.—When a nominee is a dependant of the subscriber as defined in clause (*c*) of section 2 of the Provident Funds Act, 1925, the amount vests in such nominee under sub-section (2) of section 3 of that Act.

NOTE 2.—When the subscriber leaves no family and no nomination made by him in accordance with the provisions of rule 5 subsists, or if such nomination relates only to part of the amount standing to his credit in the Fund, the relevant provisions of clause (*b*) and of sub-clause (*ii*) of clause (*c*) of sub-section (1) of section 4 of the Provident Funds Act, 1925, are applicable to the whole amount or the part thereof to which the nomination does not relate.

Deductions.

26. Subject to the condition that no deduction may be made which reduces the credit by more than the amount of any contribution by Government with interest thereon credited under rules 10 and 11, before the amount standing to the credit of a subscriber in the Fund is paid out of the Fund, the Punjab Government may direct the deduction therefrom and payment to itself of—

(*a*) any amount, if a subscriber has been dismissed from the service for grave misconduct :

Provided that, if the order of dismissal is subsequently cancelled, the amount so deducted shall, on his reinstatement in the service, be replaced at his credit in the Fund ;

(*b*) any amount, if a subscriber resigns his employment under Government within five years of the commencement thereof, otherwise than by reason of superannuation or a declaration by a competent medical authority that he is unfit for further service ;

(*c*) any amount due under a liability incurred by the subscriber to Government.

Payment.

27. (1) When the amount standing to the credit of a subscriber in the Fund, or the balance thereof after any deduction under rule 26, becomes payable, it shall be the duty of the Account Officer, after satisfying himself, when no such deduction has been directed under that rule, that no deduction is to be made, to make payment as provided in section 4 of the Provident Funds Act, 1925.

(2) If the person to whom, under these rules, any amount or policy is to be paid, assigned, re-assigned or delivered is a lunatic for whose estate a manager has been appointed in this behalf under the Indian Lunacy Act, 1912, the payment or re-assignment or delivery will be made to such manager, and not to the lunatic.

(3) Any person who desires to claim payment under this rule should send a written application in that behalf to the Account Officer. Should no application be received for payment within a period of 90 days from the death of the subscriber the Account Officer will immediately address the nominee or nominees in the declaration form of the subscriber asking for an application to be submitted. If no nomination form exists reference should be made to the Head of Department of the deceased subscriber to ascertain the next of kin who should be then immediately addressed by the Account Officer.

Pensionable Service.

28. (1) If a subscriber is permanently transferred to pensionable service under the Governor in Council, he shall, at his option, be entitled—

(a) to continue to subscribe to the Fund, in which case he shall not be entitled to any pension ; or

(b) to earn pension in respect of such pensionable service, in which case, with effect from the date of his permanent transfer—

(i) he shall cease to subscribe to the Fund ;

(ii) the amount of contributions by Government with interest thereon, standing to his credit in the Fund shall be repaid to Government ;

(iii) the amount of subscriptions together with interest thereon standing to his credit in the Fund shall be transferred to his credit in the General Provident Fund, to which thereafter he shall or may subscribe in accordance with the rules of that Fund relative to compulsory or optional subscription, respectively ; and

(iv) he shall be entitled to count towards pension such part of the period during which he subscribed to the Fund as Government may determine.

(2) A subscriber shall communicate his option under sub-rule (1) by letter to the Account Officer within three months of the date of the order transferring him permanently to pensionable service ; and, if the communication is not received in the office of the Account Officer within that period, the subscriber shall be deemed to have exercised his option in the manner referred to in clause (a) of that sub-rule.

Procedure.

29. All sums paid into the Fund under these rules shall be credited in the books of Government to an account named "The Punjab Contributory Provident Fund Account". Sums of which payment has not been taken within six months after they become payable under these rules shall be transferred to "Deposits" after the 31st March of the year and treated under the ordinary rules relating to deposits.

30. When paying a subscription in India either by deduction from emoluments or in cash, a subscriber shall quote the number of his account in the Fund, which shall be communicated to him by the Account Officer. Any change in the number shall similarly be communicated to the subscriber by the Account Officer.

31. (1) As soon as possible after the 31st March of each year, the Account Officer shall send to each subscriber a statement of his account in the Fund, showing the opening balance as on the 1st April of the year, the total amount credited or debited during the year, the total amount of interest credited as on the 31st March of the year and the closing balance on that date. The Account Officer shall attach to the statement of account an enquiry whether the subscriber—

(a) desires to make any alteration in any nomination made under rule 5 ;

(b) has acquired a family (in cases where the subscriber has made no nomination in favour of a member of his family under sub-rule (2) of rule 5).

(2) Subscribers should satisfy themselves as to the correctness of the annual statement, and errors should be brought to the notice of the Account Officer within six months from the date of receipt of the statement.

(3) The Account Officer shall, if required by a subscriber, once, but not more than once, in a year, inform the subscriber of the total amount standing to his credit in the Fund at the end of the last month for which his account has been written up.

The 22nd July 1933.

No. 891.—Whereas the validity of the election of Mr. Tek Chand, Advocate, Ambála City, by the North-East Towns (Non-Muhammadan) Constituency, as a member of the Punjab Legislative Council, has been called in question by an election petition duly presented under the provisions of Part VII of the Punjab Electoral Rules.

And, whereas, in accordance with the provisions of rule 45 of the said Electoral Rules, the Commissioners appointed for the trial of the said petition have duly submitted the Report, given below, to His Excellency the Governor,

Now, therefore, His Excellency the Governor, in exercise of the powers conferred upon him by sub-rule (3) of rule 45 of the aforesaid Rules, is hereby pleased, in accordance with the Report of the Commissioners, to declare the election of the aforesaid Mr. Tek Chand, as a

member of the Punjab Legislative Council for the North-East Towns (Non-Muhammadan) Constituency, to be void.

REPORT.

This is a petition by Shrimati Lekhwati, wife of Lala Summat Parshad of Ambála, under rule 32 (1) (*a*) and 44 (1) (*c*) of the Punjab Electoral Rules. The petition sets forth that Shrimati Lekhwati was a candidate for election to the Punjab Legislative Council for the North-East Towns (Non-Muhammadan) Urban Constituency in the bye-election of 1933. The nomination papers of the petitioner were duly filed on the 27th February 1933, but on the following day, the scrutiny day, were rejected by the Returning Officer on an objection taken by Mr. Tek Chand that a female was ineligible to stand. The objection was bad as the sex disqualification in question had been removed by Punjab Government notification No. 5009-L, Home Department (Elections), dated the 28th October 1926.

The Commissioners, issued notice to the respondents, Mr. Tek Chand, the elected candidate, and Rai Bahadur Lala Panna Lal, another candidate.

Mr. Tek Chand in his written statement admitted that the sex disqualification had been removed, as alleged by the petitioner, but he stated on solemn affirmation that at the time he took the objection he was not aware of this. He took a new objection that the petitioner had delivered four nomination papers but only one declaration as to her agent. Three of the nomination papers were invalid on the ground that they were not accompanied by any declaration, and the fourth nomination paper was invalid because the declaration which accompanied it was bad in law.

Rai Bahadur Lala Panna Lal put in a long written statement which is, however, conceived as if he were a petitioner and with which it is unnecessary to deal.

As between Shrimati Lekhwati and Mr. Tek Chand the Commissioners framed the following issues :—

1. Is the nomination of Shrimati Lekhwati bad on account of the wording of the declaration which she gave to the Returning Officer ?
2. Who is responsible for costs ?

Issue 1.—Rule 11 (5) of the Punjab Electoral Rules states :—

" Every nomination paper delivered under sub-rule (3) shall be accompanied by a declaration in writing subscribed by the candidate that the candidate has appointed or does thereby appoint as his election agent for the election either himself or some one other person."

The Commissioners have not sent for the original records as it is admitted that the declaration filed by the candidate was in the following terms :—

" I hereby declare that Lala Summat Parshad, B.A., LL.B., will be my election agent."

The objections taken are—(*a*) that the declaration does not say for what election Lala Summat Parshad was to act as agent, and (*b*) that it does not use the words, " I have appointed " or " I do hereby appoint.' In the opinion of the Commissioners both these objections are ill founded. The words " election agent " in the declaration in question must be taken to mean " agent for the election, " especially as the election was a bye-election.

As to objection (*b*) the words no doubt are not in the best possible form, but no form has been officially prescribed ; and in the circumstances the words used mean that Shrimati Lekhwati appointed Lala Summat Parshad to act as her election agent.

The Commissioners, therefore, find this point against Mr. Tek Chand, noting that it was not taken before the Returning Officer, but is raised today for the first time. Thus the declaration is not invalid, and at least one nomination paper is good.

In the opinion of the Commissioners the result of the election has been materially affected by the improper refusal of the nomination of the petitioner Shrimati Lekhwati ; and consequently the election of the returned candidate, Mr. Tek Chand, shall be void.

As to costs, all the counsel, concerned are, from motives of public spirit, appearing without charging fees. Mr. Tek Chand no doubt raised the objection (now admitted to be erroneous) in the first instance. On the other hand, the petitioner's husband and agent ought to have been aware of the rules. He states (and the Commissioners

accept his statement) that he referred to the cases of Mrs. Shave (nominated member) and of a Mrs. Amar Das, who contested an election some years ago but was not elected. He asked the Returning Officer for time, but under the rules the Returning Officer had to decide the objection the same day.

It appears from the statements of both parties that the amendment referred to in the petition was not included in the copy of the rules in the possession of the Returning Officer.

Further, in consequence of the unfortunate objection, which would not have been taken if the parties or the Returning Officer had had a copy of the rules up to date, Mr. Tek Chand has been put to the expense of an infructuous election.

Thus the responsibility for costs does not rest wholly upon Mr. Tek Chand, and the Commissioners recommend that a total sum of Rs. 50 costs be paid to Shrimati Lekhwati by Mr. Tek Chand.

REVENUE

MEMO. No. 3125-E.

Financial Commissioners' Office,

Lahore, dated 7th September 1933.

NOTICE.

THE following revised rules sanctioned by the Punjab Government are published for the information of travellers.

MILES IRVING,

Financial Commissioner and
Secretary to Government, Punjab,
Dated 1st September 1933. *Revenue Department.*

Revised rules regulating the provision of transport and supplies for officers of Government and others travelling in the Kulu Valley, Lahoul and Spiti.

1. Travellers who are not Government officers touring on duty are not entitled to, and should not rely on, the assistance of officials, lambardars or Government supply contractors for transport or supplies, but should make their own arrangements. The tahsildar at Kulu and the naib-tahsildar, Banjar, on receiving applications for assistance from travellers who are not Government servants, will put them in touch with contractors if they require mule or pony transport; but are not permitted to afford any assistance whatever in the matter of cooly transport.

2. There are supply contractors appointed by Government at the places mentioned in schedule B. They are bound to supply Government servants, travelling on duty, with the usual supplies and with transport and have been instructed to give assistance to other travellers but as a matter of courtesy only and not of right.

3. Coolies are ordinarily obtainable, except during the harvesting months (15th May to 30th June and 1st October to 15th November), if sufficient notice is given to the supply contractors at any of the places mentioned in schedule B and at other places to the village lambardars.

Mule or pony transport is procurable regularly at Kulu (Sultanpur) and sometimes at Bhuin, eight miles below Kulu.

4. Officers travelling on duty who apply for official help will be supplied only with mule or pony transport on the main routes with the exception of—

(*a*) Spiti across Hampta Pass, and

(*b*) Bhuin to Sainja and Panihar.

Coolies will be supplied for these two routes and other marches which are impracticable for mules and ponies.

5. The maximum number of coolies that may be supplied to a first class officer is 20, when tents are carried, and otherwise 12, and to a second class officer 10, when tents are carried, and otherwise 6.

6. Schedule A gives the lengths of stages and rates for mule or pony transport. For routes where coolies are required, except the Hampta route to Spiti, the rate is one anna per mile per coolie, with a minimum of 8 annas per day per coolie. If a pass over 8,000 feet has to be crossed, the charges for the day or days for crossing are 50 per cent. above these rates. Wages of coolies *plus* a commission of six pies per coolie per diem are payable in advance to the contractor if the coolies are arranged through him.

7. During the harvesting months (15th May to 30th June and 1st October to 15th November), the ordinary coolie rates given in rule 6 will be enhanced by 50 per cent.

8. Coolies to Spiti are not to be changed at intermediate stages. For every two coolies carrying luggage, wood or grass, an extra coolie must be taken to carry food for himself and the other two. Wages at the rate of Rs. 8 *plus* a commission of 6 annas per coolie are payable in advance to the lambardar or the contractor if the coolies are arranged through him.

9. Special permission from the Deputy Commissioner, Kangra, at Dharmsala, is necessary to visit Spiti where supplies and transport are difficult to obtain. Travellers must make their own arrangements for supplies and transport, but mule transport, provided the route is over the Baralacha pass, can usually be obtained at Kulu if one month's notice is given to the contractor at Sultanpur.

10. The maximum coolie load is 26 seers, but coolies travelling over a pass over 8,000 feet high should not be required to take over 24 seers.

11. Not less than 10 clear days' notice must be given to the tahsildar, Kulu, for Kulu, to the naib-tahsildar, Banjar, for Seraj, and one month's notice to the Sub-Divisional Officer, Kulu, for Lahoul, for the transport needed. The date and stage where the transport is required and the number of animals and coolies, should be given in writing.

12. Every coolie who has been sent for under these rules at the request of a traveller, whether official or non-official, and has not been employed, will be paid at half rates.

13. As mentioned in rule 2, travellers are ordinarily supplied at the places mentioned in schedule B by the supply contractor appointed by Government with locally obtainable commodities such as fowls, eggs, milk, fuel and grass. In each case payment must be made promptly to the supply contractor.

14. At places other than those mentioned in schedule B, such supplies will ordinarily be procured by the lambardar as a matter of courtesy and on prompt payment. It is only a Government officer touring on duty who can demand as of right that a lambardar shall provide supplies.

15. The Sub-Divisional Officer, Kulu, after consultation with committees at tahsil headquarters and the Wazir of Lahoul, will fix market rates for articles supplied at stages at least twice a year and oftener if there is a large fluctuation in prices.

They are bound to supply Government servants, travelling on duty, with the usual supplies and with transport and have been instructed to give assistance to other travellers but as a matter of courtesy only and not of right.

3. Coolies are ordinarily obtainable, except during the harvesting months (15th May to 30th June and 1st October to 15th November), if sufficient notice is given to the supply contractors at any of the places mentioned in schedule B and at other places to the village lambardars.

Mule or pony transport is procurable regularly at Kulu (Sultanpur) and sometimes at Bhuin, eight miles below Kulu.

4. Officers travelling on duty who apply for official help will be supplied only with mule or pony transport on the main routes with the exception of—

(a) Spiti across Hampta Pass, and

(b) Bhuin to Sainja and Panihar.

Coolies will be supplied for these two routes and other marches which are impracticable for mules and ponies.

5. The maximum number of coolies that may be supplied to a first class officer is 20, when tents are carried, and otherwise 12, and to a second class officer 10, when tents are carried, and otherwise 6.

6. Schedule A gives the lengths of stages and rates for mule or pony transport. For routes where coolies are required, except the Hampta route to Spiti, the rate is one anna per mile per coolie, with a minimum of 8 annas per day per coolie. If a pass over 8,000 feet has to be crossed, the charges for the day or days for crossing are 50 per cent. above these rates. Wages of coolies *plus* a commission of six pies per coolie per diem are payable in advance to the contractor if the coolies are arranged through him.

7. During the harvesting months (15th May to 30th June and 1st October to 15th November), the ordinary coolie rates given in rule 6 will be enhanced by 50 per cent.

8. Coolies to Spiti are not to be changed at intermediate stages. For every two coolies carrying luggage, wood or grass, an extra coolie must be taken to carry food for himself and the other two. Wages at the rate of Rs. 8 *plus* a commission of 6 annas per coolie are payable in advance to the lambardar or the contractor if the coolies are arranged through him.

9. Special permission from the Deputy Commissioner, Kangra, at Dharmsala, is necessary to visit Spiti where supplies and transport are difficult to obtain. Travellers must make their own arrangements for supplies and transport, but mule transport, provided the route is over the Baralacha pass, can usually be obtained at Kulu if one month's notice is given to the contractor at Sultanpur.

10. The maximum coolie load is 26 seers, but coolies travelling over a pass over 8,000 feet high should not be required to take over 24 seers.

11. Not less than 10 clear days' notice must be given to the tahsildar, Kulu, for Kulu, to the naib-tahsildar, Banjar, for Seraj, and one month's notice to the Sub-Divisional Officer, Kulu, for Lahoul, for the transport needed. The date and stage where the transport is required and the number of animals and coolies, should be given in writing.

12. Every coolie who has been sent for under these rules at the request of a traveller, whether official or non-official, and has not been employed, will be paid at half rates.

13. As mentioned in rule 2, travellers are ordinarily supplied at the places mentioned in schedule B by the supply contractor appointed by Government with locally obtainable commodities such as fowls, eggs, milk, fuel and grass. In each case payment must be made promptly to the supply contractor.

14. At places other than those mentioned in schedule B, such supplies will ordinarily be procured by the lambardar as a matter of courtesy and on prompt payment. It is only a Government officer touring on duty who can demand as of right that a lambardar shall provide supplies.

15. The Sub-Divisional Officer, Kulu, after consultation with committees at tahsil headquarters and the Wazir of Lahoul, will fix market rates for articles supplied at stages at least twice a year and oftener if there is a large fluctuation in prices.

Proceedings of the Government of the Punjab in the Department of Revenue (Revenue) No. 3110-R., dated the 9th September 1933.

RESOLUTION.

SINCE the prices of agricultural produce fell so sensationally in 1929-30 the Punjab Government have harvest by harvest given the most anxious consideration to the effects of this fall on the ability of the zamindars of the Province to pay the normal Government demand in respect of land revenue, abiana and other miscellaneous charges. As regards land revenue and abiana the remissions awarded from 1930 to 1932 are shown in lakhs of rupees in the following statement :—

	Land Revenue.	Abiana.
	Rs.	Rs.
Kharif 1930	11	20
Rabi 1931	84	29
Kharif 1931	21	23
Rabi 1932	19	24

2. Faced with the problem whether similar remissions of land revenue would be justified in respect of the Rabi harvest, 1933, the Punjab Government found that in only 9 districts did any *prima facie* case for such remission exist. Land revenue assessment is based on certain cardinal assumptions, the most important of which are prices of agricultural produce, area sown and matured annually and outturns per acre. The 1933 Rabi harvest was on the whole satisfactory ; outturns were generally at least up to standard and in the case of wheat very considerably above standard. Though wheat prices were certainly better than they had been in the past two years, there were certain districts in which prices assumed at settlement were dangerously near and in some cases exceeded those prevailing at harvest time. These were the 9 districts in respect of which it was decided to make investigations. These inves-

tigations were designed to show as regards each assessment circle in the districts concerned (1) how the gross value of the harvest calculated on actual prices compared with that value calculated on prices assumed at settlement; (2) what proportion of the actual gross value would be absorbed in the land revenue demand; and (3) to what extent post-settlement changes in the area sown and matured would affect the incidence of the land revenue demand per acre harvested. After careful consideration of these and other factors the Punjab Government decided to sanction in the areas where the conditions warranted it remissions of land revenue at rates varying generally from annas 2 to annas 4 in the rupee. The total effect of this concession is estimated at over Rs. 9 lakhs.

3. This concession was of a special nature outside the scope of the ordinary rules for remissions and suspensions of land revenue. In cases, however, as in the Hissar district where the unirrigated area produced practically no harvest at all, the special remission of some proportion of the land revenue demand is a less suitable expedient than the application of the ordinary rules. In respect of the Hissar district instructions were issued that in view of the scarcity conditions prevailing there the ordinary rules for suspensions and remissions of land revenue should be applied with special consideration.

4. Apart from remissions of land revenue, Government have throughout the period of depression abandoned the demand for large sums in colony areas in respect of rent nazrana and acreage or construction rate—

(1) In the year 1932-33 temporary cultivation rent to the amount of 4¾ lakhs has been remitted, mostly in the Nili Bar Colony. At the same time throughout the Nili Bar Colony, the Malikana due from grantees of Government land has been charged at half rates on the matured acreage instead of at the rate originally demanded on the allotted acreage.

(2) The collection of acreage rate has been suspended in the Nili Bar Colony in respect of Rabi 1933 as it has been for all harvests since Kharif 1930. These suspensions up to date total Rs. 11 lakhs.

(3) In the Renala lift area and in the Lower Chenab extensions the Nazrana claimable from landed gentry and reward grantees has been again suspended. These suspensions up to date total to Rs. 6¾ lakhs.

REVENUE DEPARTMENT.

REVENUE
MEMO. No. 3125-E.
Financial Commissioners' Office.
Lahore, dated 7th September 1933.

NOTICE.

THE following revised rules sanctioned by the Punjab Government are published for the information of travellers.

MILES IRVING,
Financial Commissioner and
Secretary to Government, Punjab,
Revenue Department.

Dated 1st September 1933.

Revised rules regulating the provision of transport and supplies for officers of Government and others travelling in the Kulu Valley, Lahoul and Spiti.

1. Travellers who are not Government officers touring on duty are not entitled to, and should not rely on, the assistance of officials, lambardars or Government supply contractors for transport or supplies, but should make their own arrangements. The tahsildar at Kulu and the naib-tahsildar, Banjar, on receiving applications for assistance from travellers who are not Government servants, will put them in touch with contractors if they require mule or pony transport ; but are not permitted to afford any assistance whatever in the matter of cooly transport.

2. There are supply contractors appointed by Government at the places mentioned in schedule B. They are bound to supply Government servants, travelling on duty, with the usual supplies and with transport and have been instructed to give assistance to other travellers, but as a matter of courtesy only and not of right.

3. Coolies are ordinarily obtainable, except during the harvesting months (15th May to 30th June and 1st October to 15th November), if sufficient notice is given to the supply contractors at any of the places mentioned in schedule B and at other places to the village lambardars.

Mule or pony transport is procurable regularly at Kulu (Sultanpur) and sometimes at Bhuin, eight miles below Kulu.

4. Officers travelling on duty who apply for official help will be supplied only with mule or pony transport on the main routes with the exception of—

(*a*) Spiti across Hampta Pass, and

(*b*) Bhuin to Sainja and Panihar.

Coolies will be supplied for these two routes and other marches which are impracticable for mules and ponies.

5. The maximum number of coolies that may be supplied to a first class officer is 20, when tents are carried, and otherwise 12, and to a second class officer 10, when tents are carried, and otherwise 6.

6. Schedule A gives the lengths of stages and rates for mule or pony transport. For routes where coolies are required, except the Hampta route to Spiti, the rate is one anna per mile per coolie, with a minimum of 8 annas per day per coolie. If a pass over 8,000 feet has to be crossed, the charges for the day or days for crossing are 50 per cent. above these rates. Wages of coolies *plus* a commission of six pies per coolie per diem are payable in advance to the contractor if the coolies are arranged through him.

7. During the harvesting months (15th May to 30th June and 1st October to 15th November), the ordinary coolie rates given in rule 6 will be enhanced by 50 per cent.

8. Coolies to Spiti are not to be changed at intermediate stages. For every two coolies carrying luggage, wood or grass, an extra coolie must be taken to carry food for himself and the other two. Wages at the rate of Rs. 8 *plus* a commission of 6 annas per coolie are payable in advance to the lambardar or the contractor if the coolies are arranged through him.

9. Special permission from the Deputy Commissioner, Kangra, at Dharmsala, is necessary to visit Spiti where supplies and transport are difficult to obtain. Travellers must make their own arrangements for supplies and transport, but mule transport, provided the route is over the Baralacha Pass, can usually be obtained at Kulu if one month's notice is given to the contractor at Sultanpur.

10. The maximum coolie load is 26 seers, but coolies travelling over a pass over 8,000 feet high should not be required to take over 24 seers.

11. Not less than 10 clear days' notice must be given to the tahsildar, Kulu, for Kulu, to the naib-tahsildar, Banjar, for Seraj, and one month's notice to the Sub-Divisional Officer, Kulu, for Lahoul, for the transport needed. The date and stage where the transport is required and the number of animals and coolies, should be given in writing.

12. Every coolie who has been sent for under these rules at the request of a traveller, whether official or non-official, and has not been employed, will be paid at half rates.

13. As mentioned in rule 2, travellers are ordinarily supplied at the places mentioned in schedule B by the supply contractor appointed by Government with locally obtainable commodities such as fowls, eggs, milk, fuel and grass. In each case payment must be made promptly to the supply contractor.

These lands will be held by them on the terms for peasants allotted land on or after 11th December, 1916, in the Lower Bari Doab Canal Colony, which were published with Punjab Government notification No. 132, dated the 11th December, 1916,

as amended by Punjab Government No. 301-1180-8341, dated 3rd July 1923, and No. 690-D, dated 26th January, 1929, with the following exceptions :—

(1) For condition 4 the following conditions shall be substituted —

"the tenant in return for his initial deposit of the purchase price will receive occupancy rights in the land purchased by him."

(2) Condition 5 shall be omitted.

(3) In condition 16 the provisos with regard to initial remissions of occupiers rates, land revenue, malikana and cesses shall be omitted.

(4) Condition No. 22 shall be omitted.

(5) In condition 24 after the opening sentence the following sentence shall be added :—

"For the purposes of this condition the tenancy shall be deemed to have commenced on the 31st March, 1930."

(6) For clauses "Firstly" to "Fifthly" in condition 24 the following shall be substituted :—

Firstly.—That the tenant shall duly pay to the Government as purchase money a total amount which shall be fixed as shown in the statement below in accordance with the number of half-yearly instalments in which the amount is payable —

For purchasers in	No. of half-yearly instalments.	Amount of each instalment.	Total amount payable, per acre.
		Rs. A. P.	Rs.

Two years	4	28 0 0	112
Five years	10	12 0 0	120
Ten years	20	6 8 0	130

Thirty years	60	3 8 0	210
Forty years	80	3 0 0	240

Secondly.—That it shall be open to the tenant to select any number of instalments included in the above statement in which to pay the amount payable for the purchase of proprietary right :

Provided that the amount of the first instalment paid by him shall determine the number of instalments, and that he shall not be allowed to complete the purchase in a greater or less number of instalments without the special permission of the Collector.

Thirdly.—That with effect from the harvest in which the first instalment is paid the malikanao therwise payable on the tenancy shall be conditionally remitted, and so long as the tenant regularly and within due date continues to pay the instalment due no malikana shall be assessed on the land of the tenancy. If the tenant fails to pay any instalment by the due date, the the Collector shall impose malikana at the rate which would have been payable if the tenant had not exercised his option of purchase and with effect from the harvest in which the default occurs, and no part of the malikana paid in that or in subsequent harvests shall be credited towards the total amount payable for the acquisition of proprietary right :

Provided that a tenant who has defaulted in the payment of any instalment may at any time apply to the Collector for permission to renew the purchase of proprietary right and on the receipt of such application the Colloctor shall allow the tenant to renew the purchase, and the malikana otherwise payable on the land of the tenancy shall again be conditionally remitted from the harvest in which the tenant pays the instalment next following the date of the permission granted by the Collector. The instalment so paid and all instalments paid before the default of the tenant shall be credited towards the total amount payable. If the tenant again defaults the same procedure shall be followed.

Fourthly.—That the Collector may fix a date not later than the 15th November for the kharif payment and not later than the 1st April for the rabi payment before which the tenant shall pay the instalment for the kharif and the rabi harvest, respectively. A tenant who does not pay his instalment before the date so fixed shall be deemed to have defaulted for that harvest.

Fifthly.—That the tenant shall not acquire any proprietary or other right, not conferred upon him as a tenant by the conditions contained in this statement of conditions and shall continue to be subject to the conditions of the tenancy, unless and until the whole amount of the said purchase money shall have been duly paid and discharged in the manner hereinbefore provided.

Sixthly.—Provided also that the Collector may withhold proprietary rights from the tenants of any estate in which the state of crime is such as in his opinion to disentitle the villagers to the concession.

Seventhly.—Provided that the Collector may refuse to allow the acquisition of proprietary rights to all or any of the tenants of the estate in which any of the following faults or defects are found to exist :—

(*a*) Gross or repeated encroachments on the *charagah*, unallotted village site, or public roads or thoroughfares.

(*b*) Grossly insanitary conditions, *e. g.*, borrowpits within the compounds of houses ; the heaping of manure within compounds instead of outside the village ; the making of village tanks in places other than those indicated by competent authority.

(*c*) Persistent neglect of arboriculture in the village site.

But proprietary rights may in such cases be acquired, if otherwise allowable, when the defect for which it has been withheld has been remedied.

Eighthly.—Provided also that proprietary rights may also be withheld from the tenants of any estate in which a breach of the canal or distributary has occurred within five years of the date of the tenant's application for purchase, if there is reason to believe that such breach was wilfully caused by residents of the estate.

Ninthly.—That if any tenant has in addition to the initial deposit of his purchase money made any other payment towards the purchase price of the land now resumed, he shall be entitled to set off that sum against the demand for the first instalment or instalments for the purchase of proprietary rights in his tenancy.

LEGISLATIVE.

The 19th October 1933.

No. 26384.—In continuation of Punjab Government notification No. 32821-Home—Legislative, dated the 19th of October 1932, the following statement showing the action taken by Government on resolutions passed by the Punjab Legislative Council is published for general information :—

Serial No.	Terms of resolutions passed.	Volume No. and page of Legislative Council Debates.	Action taken.
1	This Council recommends to the Government that a small committee consisting of official and non-official members of this Council be appointed to suggest necessary amendments in the Northern India Canal and Drainage Act and to overhaul all the rules made thereunder by the Government or the Department of Irrigation.	Volume XXII, No. 9, dated 29th November 1932. Pages 653—677.	Government has decided not to appoint a committee at present but the general question is being considered.
2	This Council recommends to Government that a committee consisting of official and non-official experts and a few non-official members of this Council should be appointed to examine and report upon the best means of re-adjusting the existing water rates to the present prices of agricultural produce with as little loss to public revenue as possible.	Volume XXIII, No. 13, dated 21st of March 1933. Pages 643—655.	A committee has been appointed to consider and report on the subject.
3	This Council recommends to the Government to give a substantial remission of all Government dues in respect of rabi 1933.	Volume XXIII-13, dated the 21st of March 1933. Pages 655—674.	The question of abiana has been referred to a committee and so far as land revenue is concerned remissions were granted in districts where the current price of wheat was below Settlement Commutation price.
4	This Council recommends to the Government that electricity from Uhl River Hydro-Electric Plant should be supplied to zamindars for agricultural purposes at concession rates for at least five years.	Volume XXIII, No. 14, dated the 23rd of March 1933. Pages 700—712.	The appointment of projects engineer has been created by Government under the Chief Engineer, Electricity, at headquarters. The officer has not yet been recruited, but when secured, he will, in the course of his examination of new projects for the use of power from the Mandi Scheme, take up, in close co-operation with the Agricultural Department, the examination of projects in rural areas which may appear to have reasonable revenue prospects.
5	This Council recommends to Government that the powers of the canal authorities regarding the grant of *kharaba* be taken from them and transferred to revenue authorities on all the canals in the Punjab.	Volume XXIII, No. 24, dated the 27th of July 1933. Pages 1076—1093.	The matter is under consideration.
6	This Council recommends to the Government to convey to the Government of India the opinion of this Council that the schedule of railway freights is extremely detrimental to the interests of this Province in general and of agriculturists in particular.	Volume XXIII, No. 24, dated the 27th of July 1933. Pages 1094—1107, and No. 25, dated 28th July 1933. Pages 1170—1186.	The Government of India has been addressed on the subject.

RESOLUTION.

The Panjnad Headworks and Canal System, Sutlej Valley Project.

No. 10052-Est. E.—Owing to there having been no Opening Ceremony on the completion of the construction work of the Panjnad Headworks, and system of canals therefrom, it has not until now been possible for Government formally to thank the officers, subordinates and other staff who have been connected with the works, for the skill and enterprise shown in their execution.

The Headworks at Panjnad, situated at the confluence of the Chenab and Sutlej Rivers, consist of a massive concrete weir surmounted by 47 steel gates, 13½′ high, each of 60′ span. Across the Barrage is a 10′ wide roadway designed to carry a light railway, and provision has also been made, in the extra length of piers and foundations, for a broad gauge railway bridge, to be built when more prosperous times demand such a crossing.

The Barrage at Panjnad is the largest of its kind in the Punjab, and is a little more than two-thirds the size of the great Barrage at Sukkar. Originally projected as a barrage of 33 spans of 60′, estimated to cost 206 lakhs rupees, it was during construction owing to the unprecedented floods experienced in Punjab rivers during the years 1928 and 1929 increased in size by 40 per cent. to 47 spans of 60′ without any increase in the estimated cost.

The actual cost is likely to be in the neighbourhood of 197 lakhs rupees as against the 206 lakhs estimated.

The Panjnad Canal taking off on the left bank of the river commands some 1½ million acres of the best land in the Bahawalpur State, of which when the scheme is fully developed about 1 million acres is expected to be irrigated annually. This canal is one of the largest in India, in the Punjab being exceeded in capacity only by the Upper and Lower Chenab Canals.

Estimated to cost 256 lakhs rupees the actual expenditure to completion is likely to be in the neighbourhood of 190 lakhs rupees.

The skillful and economical execution of these large works reflects great credit on the officers and staff concerned.

The thanks of the Local Government are due to the undermentioned officers and staff for their skillful, loyal and meritorious service :—

REVENUE.

The 28th November 1933.

No. 3988-C.—In pursuance of the provisions of sub-section (2) of section 10 of the Colonization of Government Lands (Punjab) Act, 1912, the Governor in Council is pleased to issue the following statement of the conditions on which the Government is willing to grant lands to certain persons of the peasant class in Rakh Chunian, Lahore District :—

Statement of conditions under the Colonization of Government Lands (Punjab) Act, 1912, relating to peasant grants in Rakh Chunian, Lahore District.

1. This statement of conditions is issued subject to the provisions of the Colonization of Government Lands (Punjab) Act, 1912, hereinafter referred to as " the said Act " and in pursuance of the provisions of sub-section (2) of section 10 thereof.

2. No person shall be entitled as of right to become a tenant, that is to say, the Local Government hereby reserves to itself and retains absolute discretion in the selection of tenants for the lands referred to in this statement.

3. In this statement of conditions—

(a) " the lands " and " the said lands " shall, so far as each separate tenancy is concerned, be deemed to apply to and designate the lands included in that tenancy ;

(b) " the date of the commencement of the tenancy " means the date of the written order referred to in sub-sections (3) and (4) of section 10 of the said Act confirming the allotment ;

(c) " Collector " and " Commissioner " shall have the meanings assigned to them in section 3 of the said Act ;

(d) " improvements " means improvements as defined in clause (19) of section 4 of the Punjab Tenancy Act, 1887.

3-A. The tenant shall sink and construct, if not already constructed, and maintain one working well in each original holding. This well shall be in working order within two years after commencement of his tenancy.

4. (1) Upon or after the expiration of five years from the date of the commencement of the tenancy, the tenant, having duly paid all sums due to Government under the conditions hereinafter described and having duly observed all the stipulations herein contained and to be by him observed, shall be entitled at any time to receive from the Government a Sanad giving him a right of occupancy in the said lands ; provided that the tenant shall hold and possess the said lands and every part thereof, subject for ever to all the provisions and stipulations herein contained :

Provided also that the Collector may refuse to allow the acquisition of occupancy rights by all or any of the tenants of any estate if for reasons to be recorded in writing he finds that—

(a) there have been in the estate gross or repeated encroachments on the *charagah,* unallotted village site, or public roads or thoroughfares ;

(b) the condition of the estate is grossly insanitary ;

(c) there has been a persistent neglect of arboriculture in the village site.

Explanation.—The existence of a borrow-pit within the compound of a house, or of a heap of manure within a village site, or of a tank in a place other than a place indicated for the purpose of a tank by competent authority shall be deemed to be proof that the estate concerned is in a grossly insanitary condition for the purpose of this clause.

(2) When a Collector has under the provisions of clause (1) of this condition refused to allow occupancy rights to be acquired, he may notwithstanding such refusal allow them to be acquired after the encroachment, insanitary state or neglect, as the case may be has been removed.

(3) Occupancy rights will not in any case be granted until a well has been sunk in the holding in accordance with condition 3-A above.

5. When any person is granted a tenancy in accordance with these conditions he shall not enjoy any new period of remissions in the case of any square previously cultivated in whole or part.

6. The Local Government does not grant to the tenant but hereby absolutely excepts and reserves to itself out of and in respect of the said lands, all existing rights to and over all mines and minerals, coals, gold-washings, earth-oil and quarries in or under the said lands or any part thereof, together with all easements heretofore enjoyed by the Government in respect of the said lands or any part thereof.

7. The tenant shall at all times permit any officer or officers of Government to enter into and upon the whole or any part of the lands and do all acts and things that may be necessary or expedient for the purpose of searching for, working, getting or carrying away any such mines and minerals, coals, gold-washings, earth-oil and quarries and for the full enjoyment of the ground and of each and all of the rights hereinbefore reserved to the Government to and over all mines and minerals, coals, gold-washings, earth-oil, quarries and easements in or under the said lands and all parts thereof.

8. The Local Government agrees to pay to the tenant reasonable compensation for any damage at any time directly occasioned by the exercise by the Local Government of all or any of the rights reserved to itself in clause 6 and clause 7 other than existing rights of way and water and other easements.

9. The Local Government excepts and reserves the right of the public to traverse a width of 3 *karams* along one side of the lines bounding 23-acre squares wherever this may be considered necessary in the public interest by the Collector, and also to traverse a width of 3 *karams* otherwise situated wherever the Collector considers this necessary in order to replace an existing thoroughfare; and the tenant is prohibited from cultivating or otherwise obstructing the thoroughfares so provided.

10. The tenant shall at all times, on receipt of a requisition in writing signed by the Collector, permit the Collector to take possession of, and finally to resume for the Government, so much of the said lands as may from time to time, in the opinion of the Collector, be required for the construction, repairs or maintenance of railways, roads, canals, distributaries, and water-courses or any works connected therewith.

11. No compensation shall be claimable by the tenant or any other person in respect of such reservation or resumption as is referred to in clauses 9 and 10, but in respect of any area so reserved no occupiers' rates, land revenue, *malikana* or cesses shall be payable by the tenant.

12. The tenant shall be chargeable with the whole of the cost of the survey and demarcation of the said lands, together with his share of the cost of the water-course or water-courses of the estate in which the said lands are situated, and of the roads and culverts necessary for the general convenience of the residents of such estate, and also with the costs of keeping such roads and culverts in proper repair. The amounts of such charges, as determined by Government, or by the Collector in the case of repairs of roads and culverts, shall be recoverable in such manner and at such times as may be fixed by Government or by the Collector, respectively.

13. The tenant shall duly comply with such directions as the Collector shall from time to time issue requiring him to construct boundary marks on the limits of the said lands or any part thereof, and shall keep them when erected in good repair to the satisfaction of the Collector.

14. The tenant shall render all such assistance in the prevention or discovery of crime as is incumbent on the owner and occupiers of land by any law or rules for the time being in force in the Punjab, and is and shall be responsible in the same manner as headmen, watchmen or other inhabitants of villages are under any track law or rules for the time being in force in the Punjab.

15. The tenant shall be bound to be and to remain at all times of loyal behaviour, and to render active support to the Government and its officers in any time of trouble or disorder. The decision of the Local Government whether this condition has been violated by the tenant shall be final, and if the Local Government is of opinion that the tenant has committed a breach of this condition, it may resume the tenancy or any portion thereof, either temporarily, or permanently, and such resumption shall not affect any other penalty to which the tenant may be liable under these conditions or otherwise.

16. If the tenant is ordered, under section 118 of the Code of Criminal Procedure, to execute a bond to be of good behaviour, or is sentenced to a term of imprisonment of one year or longer and the order or sentence is not set aside or the sentence not reduced to a term of less than one year on appeal or revision, he shall be deemed to have committed a breach of the conditions of his tenancy and the Collector may order the resumption of the tenancy as provided in section 24 of the Act aforesaid.

17. The tenant shall pay such rent as the Punjab Government shall from time to time prescribe :—

(1) The initial rent per harvest, with rates and cesses, shall be as under :—

(a) for *nahri* crops Rs. 1-6-0 per acre matured plus Re. 1 per acre matured as water advantage rate,

(b) for *chahi* and *chahi-nahri* crops Rs. 2-1-0 per acre matured, and

(c) for *barani* crops Rs. 1-10-0 per acre matured.

(2) For the purposes of determining rates and cesses, the above rent shall be considered to consist of annas six for *nahri* / Rs. 1-1-0 for *barani* and *chahi-nahri* / annas ten for *barani* lands as land revenue and Re. 1 *malikana*.

All payments mentioned in this clause shall be made to such persons and at such places as the Collector shall from time to time appoint ;

Provided that the Local Government shall remit the whole demand on account of rent, occupiers' rates and cesses in respect of the first two harvests in the case of such squares in the lands of the tenancy as have not been cultivated before in whole or part :

Provided also that the Collector shall decide which is the first harvest gathered from the land of each tenancy, and that his decision shall be final.

18. The tenants shall take up his residence permanently in the estate in which the said lands are situated within six months of the date on which the Collector directs that he be put in possession of a specified area of land, and within one year of the same date he shall build a residential house to the satisfaction of the Collector on a site allotted by the Collector or (with the permission of the Collector) on his own land. Provided that when the tenancy is held jointly by two or more persons, the Collector may, for sufficient reason, excuse any of such joint holders from personal residence in the estate.

19. In the case of a tenant who has not received a right of occupancy in his tenancy under clause 4 of these conditions, the Collector may, with or without the consent of the tenant, upon offering to the tenant, in exchange, an area in any colony as nearly as may be equal in value to the lands of the tenancy, resume the said lands. Any land so received in exchange by the tenant shall be deemed to be held on the same conditions and subject to the same obligations as the resumed lands. The Government shall pay to the tenant such compensation as it may consider reasonable for improvements by him in the resumed lands.

20. If within three years from the commencement of allotment of tenancies in the estate no suitable well for drinking purposes is constructed for the estate in which the said lands are situated, the Collector may have a well constructed by such agency as the deems fit, and in such case the tenant shall be bound to pay to Government as his contribution towards the cost thereof such share as the Collector may determine. The payment shall ordinarily be made in advance, but no payment, except for special reasons, shall be leviable until the expiry of three years from the date on which two-thirds of the allottable area of the estate have been put into possession of the tenants.

21. All trees and brushwood on the said lands shall be at the absolute disposal of the tenant, and may be sold by him.

22. The tenant may sink wells, make water-courses, plant trees and otherwise improve the land and, subject to the due fulfilment by him of the conditions and liabilities set forth in this statement, shall be entitled to all the products of land other than those specified in clause 6 hereof :

Provided that no water-course shall be made on a plan or in a position not approved by the Irrigation Department, and that every water-course in use shall be kept in proper repair by the tenant to the satisfaction of that Department.

23. The tenant shall not use the said lands or any part thereof in a manner which renders them unfit for the purposes for which he holds them, and shall bring one-third of the culturable area thereof under cultivation within three years from the date of commencement of the tenancy, and one-half thereof similarly reckoned within five years from the same date, and thereafter he shall keep the said lands under cultivation to the extent of one-half thereof.

24. The tenant is bound—

(1) if he is in the service of Government or is a pensioner and has not been selected by the military authorities as such ; or

(2) if he or any other member of his family to whose property he has succeeded in whole or part or will succeed if he survives him, has previously received from Government any grant of land ;

to disclose the fact by written acknowledgment to the officer who allots the tenancy to him and before the completion of the allotment.

In this clause the expression "member of his family" means any descendant of the paternal grandfather of the tenant or any descendant of any ancestor of the tenant in the male line whose name has been entered in any record of rights as that of a shareholder joint with the tenant in any holding.

25. (1) Upon or after the expiration of five years from the conferment under condition 4 of a right of occupancy in the said lands during the continuance of the tenancy the tenant shall, if he has during the continuance of the tenancy duly complied with and observed each and all of the conditions in this statement of conditions contained and has duly paid in the manner in the said conditions provided, all sums due to the Government under the provisions of the said conditions and each and all of them, but subject always to the terms and conditions hereinafter in that behalf made and provided, be entitled to purchase from the Government the proprietary right in the said lands, and in the event of any such purchase being duly carried into effect and completed the purchaser and his heirs and legal representatives shall hold and possess the said lands and every part thereof in proprietary right free of any payment on account of *malikana*, but subject to the due and regular payment of the land revenue, rates and cesses and all other charges leviable in respect thereof under any law for the time being in force in that behalf.

(2) The terms and conditions upon which the tenant may, in the circumstances specified in the preceding clause of this condition, purchase from the Government the proprietary right in the land granted to him as such tenant, as aforesaid, shall be as follows :—

Firstly.—That the tenant shall duly pay to the Government as purchase money a total amount which shall be fixed as shown in the statement below in accordance with the number of half-yearly instalments in which the amount is payable :—

For purchasers in	*No. of half-yearly instalments.*	*Amount of each instalment.* Rs. A. P.	*Total amount payable.* Rs.
One year	.. 2	25 0 0	50
Two years	.. 4	14 0 0	56
Five years	.. 10	6 0 0	60
Ten years	.. 20	3 4 0	65
Fifteen years	.. 30	2 8 0	75
Twenty years	.. 40	2 4 0	90
Twenty-five years	.. 50	2 0 0	100
Thirty years	.. 60	1 12 0	105
Forty years	.. 80	1 8 0	120

Secondly.—That it shall be open to the tenant to select any number of instalments included in the above statement in which to pay the amount payable for the purchase of proprietary right :

Provided that the amount of the first instalment paid by him shall determine the number of instalments, and that he shall not be allowed to complete the purchase in a greater or less number of instalments without the special permission of the Collector.

Thirdly.—That with effect from the harvest in which the first instalment is paid the *malikana* otherwise payable on the tenancy shall be conditionally remitted, and so long as the tenant regularly and within due date continues to pay the instalment due no *malikana* shall be assessed on the land of the tenancy. If the tenant fails to pay any instalment by the due date, the Collector shall impose *malikana* at the rate which would have been payable if the tenant had not exercised his option of purchase and with effect from the harvest in which the default occurs, and no part of the *malikana* paid in that or in subsequent harvests shall be credited towards the total amount payable for the acquisition of proprietary right :

Provided that a tenant who has defaulted in the payment of any instalment may at any time apply to the Collector for permission to renew the purchase of proprietary right, and on the receipt of such application the Collector shall allow the tenant to renew the purchase, and the *malikana* otherwise payable on the land of the tenancy shall again be conditionally

remitted from the harvest in which the tenant pays the instalment next following the date of the permission granted by the Collector. The instalment so paid and all instalments paid before the default of the tenant shall be credited towards the total amount payable. If the tenant again defaults the same procedure shall be followed.

Fourthly.—That the Collector may fix a date not later than the 15th November for the *kharif* payment and not later than the 1st April for the *rabi* payment before which the tenant shall pay the instalment for the *kharif* and the *rabi* harvest, respectively. A tenant who does not pay his instalment before the date so fixed shall be deemed to have defaulted for that harvest.

Fifthly.—That the tenant shall not acquire any proprietary or other right, not conferred upon him as a tenant by the conditions contained in this statement of conditions and shall continue to be subject to the conditions of the tenancy, unless and until the whole amount of the said purchase money shall have been duly paid and discharged in the manner hereinbefore provided.

Sixthly.—Provided also that the Collector may withhold proprietary rights from the tenants of any estate in which the state of crime is such as in his opinion to disentitle the villagers to the concession.

Seventhly.—Provided also that proprietary rights may also be withheld from the tenants of any estate in which a breach of the canal or distributary has occurred within five years of the date of the tenant's application for purchase, if there is reason to believe that such breach was wilfully caused by residents of the estate.

Eighthly.—Provided that the Collector may refuse to allow the acquisition of proprietary rights to all or any of the tenants of the estate in which any of the following faults or defects are found to exist :—

(*a*) Gross or repeated encroachments on the *charagah*, unallotted village site, or public roads or thoroughfares.

(*b*) Grossly insanitary conditions, *e. g.*, borrow-pits within the compounds of houses ; the heaping of manure within compounds instead of outside the village ; the making of village tanks in places other than those indicated by competent authority.

(*c*) Persistent neglect of arboriculture in the village site.

But proprietary rights may in such cases be acquired, if otherwise allowable, when the defect for which it has been withheld has been remedied.

(3) When any tenant has, under the provisions and in pursuance of the preceding clauses of this condition, purchased the proprietary right in any lands from the Government, and has duly paid the whole of the purchase money therefor to the Government, and has complied with all the terms and conditions hereinbefore provided in that behalf, the Government shall execute, or cause to be executed, a valid conveyance granting, conveying and assuring the proprietary right so purchased to the purchaser, and the purchaser shall thereupon, in respect of the land so purchased, cease to be subject to the conditions herein contained with the exception of conditions Nos. 6, 7, 8, 9, 13, 15 and 23 by which and by the provisions of the Colonisation of Government Lands (Punjab) Act, 1912, applicable to proprietors of land, he shall continue to be bound.

(4) A tenant who has acquired proprietary right in his tenancy will also receive proprietary right in the land allotted to him in the village site on payment at the same rates as for the tenancy.

26. In the event of any dispute arising between the Government and the tenant during the currency of the tenancy as to the property and rights hereby reserved to Government, or as to any matter in any way relating thereto, or as to any of the conditions of tenancy, or as to any matter or thing anywise connected therewith, the said dispute shall, except as provided in clauses 17 and 25, be referred for the arbitration of the Commissioner of the Division, whose decision shall be final and conclusive between the Government and the tenant.

Proceedings of the Punjab Government (Ministry of Local Self-Government) in the Public Works Department, Electricity Branch, No. 840-W., dated 30th November 1933.

READ—

The Administration Report of the Punjab Public Works Department, Hydro-Electric Branch, for the year 1932-33.

The year 1932-33 saw the concluding stages of the construction of the Uhl River Hydro-Electric Scheme, on which work commenced early in 1926. In the power production area, the lining, mantling and testing of the tunnel were successfully completed by the end of September, 1932, after continuous and arduous work commencing on the 1st January 1928. The power-house was completed, equipped, and ready for service by February 1933. On the transmission system, the erection of the trunk and branch lines from Jogindernagar to Lahore, Lahore to Lyallpur and Ferozepore, and Amritsar to Kartarpur was finished, and the sub-stations and other buildings were constructed on the trunk line, and sub-station equipment installed, though not tested. The scheme was officially opened by His Excellency the Viceroy at the Shalimar Receiving Station (Lahore) on the 10th March 1933.

In pursuance of the decision of Government to undertake departmentally local distribution in certain towns on the system, the erection of poles and construction of local distribution sub-stations was commenced in Pathankot, Dinanagar and Gurdaspur, while in other towns, due to receive supply later, preliminary work including surveys, selection of sub-station sites and location of poles made satisfactory progress.

On the financial side, the expenditure on the main scheme during the year was roughly Rs. 106 lakhs, and up to the end of the year from the inception of construction about Rs. 494 lakhs. The outlay during the year on local distribution was somewhat less than Rs. 3½ lakhs, against a sanctioned estimate of over Rs. 40 lakhs. The figures of

Rs. 494 lakhs and Rs. 3½ lakhs quoted take no account of bills outstanding at the end of the year 1932-33, or of commitments, or of work still to be carried out against the estimates.

On the commercial side, tariffs and abridged conditions of supply of power to the various categories of consumer were framed and circulated. Negotiations were conducted with various prospective purchasers of energy on a large scale. The Amritsar Municipal Committee agreed to take additional power for their head water-works. Discussions with the North-Western Railway regarding their requirements at their power-house at Moghalpura were in progress at the end of the year. Attempts during the year to come to terms with the Electric Supply Companies at Lahore and Jullundur proved infructuous. Load possibilities were investigated in several localities, of which mention may be made of Kangra, Phillaur and neighbouring villages, the Lahore and Amritsar suburban areas and the Faridkot State. Publicity work in various forms was undertaken, and the local engineering staff in the various towns canvassed and registered the demands of prospective consumers. The Assistant Commercial Manager devoted much care to the working out of a suitable accounts system for the operation of the project.

In regard to the organization of the branch the year saw the preparation for the transition from the construction to the operation of the scheme. The completion of work in the headworks area was attended by the closing down of the construction circle and divisions in the Mandi State, and during the year the recruitment of operating staff engaged the attention of Government. For the power-house a Resident and Assistant Resident Engineer were recruited from England together with a specialist sub-station engineer for the Lahore Receiving Station. The posts of Local Manager were filled by the careful selection of young Indian officers who had already shown promise in the Branch as Assistant or Apprentice Engineers.

In regard to personnel, the year was marked by the tragic death on the 16th May 1932 in a motor accident near Batala of Colonel Battye, D.S.O., A.M., who, while a Superintending Engineer engaged on hydro-electric surveys, had prepared the project, and who had been its Chief Engineer since the inception of construction. His boundless enthusiasm, energy and resource had been a predominant factor in the surmounting of the many difficulties with which the execution of the work had been attended, and his example had proved a continuous source of inspiration and encouragement to his staff. His death at a time when the successful completion of his work was in sight is deeply deplored by Government.

He was succeeded as Chief Engineer by Mr. H. P. Thomas, C.I.E., Mr. A. R. Astbury, C.S.I., C.I.E., continued throughout the year as Commercial Manager of the project.

AT the very outset, on behalf of our tribesmen and our own, we, the Tumandars of Dera Ghazi Khan, beg most respectfully to congratulate you on assuming charge of the Governorship of this Province. We consider it a great good fortune that on the retirement of His Excellency Sir Geoffrey Fitzhervey deMontmorency, the reins of the Government have been entrusted to a wide-awake statesman like Your Excellency. We are confident that under Your Excellency's control the Province of the Punjab will make all round progress and that a backward district like Dera Gházi Khan will receive Your Excellency's special attention.

We are grateful to Your Excellency for favouring this district with a visit, no doubt, at considerable inconvenience to yourself. We accord Your Excellency a very cordial welcome in our midst and hope that this visit will be followed by many others.

As Your Excellency is fully aware, the Beloch Tumandars occupy a special position in the Province, because of their past history. We do not consider it necessary to recapitulate that history, but we wish, in all humanity, to assure Your Excellency of the steadfast loyalty to the British Crown of ourselves and our tribesmen. It has been always our privilege to stand by the Government in times of need, and we beg most respectfully to assure Your Excellency that for all times to come you will find us and our tribesmen ready to follow in the footsteps of our predecessors in this respect.

Your Excellency, Dera Ghazi Khan is literally the *ultima thule* of the Punjab, and for this reason, it is not as fortunate as some of the central districts of the Punjab are in the matter of visits by the Head of the Government. We will, therefore, be pardoned if we utilize the present opportunity for bringing to Your Excellency's notice some of the more pressing needs of our tribesmen.

It will be a source of satisfaction to Your Excellency that under the wholesome influence of their respective Tumandars, the various Beloch clans inhabiting the tribal area who, not very long ago, used to eke out their livelihood by organized dacoities and other questionable means, have taken to peaceful avocations, such as agriculture and stock-breeding. Unfortunately, however, conditions obtaining in the hill area do not afford them sufficient encouragement for their new mode of life. Scarcity of water and almost total absence of the means of communication are their chief difficulties. Not unoften, shortage of water compels them to cross the border and go over to Belochistan where they come into conflict with the unruly tribesmen and get involved in serious troubles. These conflicts remind them of their past and there is a very real apprehension of our efforts to reform them being frustrated. We, therefore, humbly approach Your Excellency to consider the desirability of establishing suitable means of communication in these hills and also of providing adequate number of tanks at places for collection of rain-water, for their use. In this connection we wish particularly to invite Your Excellency's attention to the question of water-supply of Fort Munro which occupies a central position in the hilly area of this district, and has gained inter-provincial importance because of the fact that inter-provincial Chief Jirgas are annually held there. At present Fort Munro has no regular system of water-supply, and rain-water is collected in small tanks which dry up in no time. This scarcity of water at such an important centre is a source of great difficulty to all concerned. At our representation Punjab Government had ordered an estimate of scheme of water-works for Fort Munro to be prepared. We beg Your Excellency to be pleased to see that scheme through.

Your Excellency, educational backwardness of this district is almost proverbial. The condition of hill Belochies in this regard is really pitiable. It is our considered opinion that with the spreading of literacy, the turbulent element in the hills will become easier to control. At present in the entire hill area extending over 2,566 square miles, there are only five schools. More schools at suitable places are needed. We, therefore, request Your Excellency to be pleased to consider the advisability of formulating a ten years' programme for spreading literacy among the hill Belochies.

The question of providing of Medical Relief to the hill Belochies is no less important. At present only one hospital is maintained at Fort Munro for six months in a year. It would be in the fitness of things if in consultation with the local authorities and the Tumandars Your Excellency could consider the question of providing Medical Relief in the tribal area.

Your Excellency, another matter which requires serious consideration of the Government is the question of visits which the Pathan tribesmen of the trans-border *Ilaqa* pay to Belochistan during winter. These Pathans are allowed by the Belochistan Government to settle in their *ilaqa* along our border, because they pay the said Government grazing taxes. Twice during the last 3 years these Pathans have come into conflict with our hill Belochies and bloodshed on both sides has been the result. Some sort of arrangement with the Belochistan Government in this respect is necessary. We beg humbly to suggest that the said Government may be asked to completely disarm these Pathans before allowing them to settle along our border, otherwise they may be totally prohibited from entering the Barkhan Sub-Division of the Loralai District.

In conclusion, we beg once more to thank Your Excellency for this kindness in giving a patient and sympathetic hearing, and pray, that Your Excellency may have a long, happy and prosperous life.

Address by the Municipal Committee, Dera Ghazi Khan.

At the very outset we, the members of Dera Ghazi Khan Municipal Committee, beg to offer Your Excellency our heartiest congratulations on Your appointment as the Governor of this Province. Our felicitations though late are none the less sincere on that account. In fact since the time of Your Excellency's assuming charge of the exalted office we have been looking forward to the day when we shall be able to combine our felicitations with our cordial welcome to Your Excellency in our midst. We are grateful to Your Excellency for giving us that opportunity to-day.

Your Excellency, the province is fortunate in having in your goodself a wide awake Governor who has taken pains to study its problems and who is known to its people as a sympathetic Settlement Officer, an energetic Deputy Commissioner, a shrewd Finance Secretary and a courteous and generous Chief Secretary. We are confident that under Your vigilent control this land of six rivers, for we cannot afford to ignore the mighty Indus, will make all round progress.

We welcome Your Excellency once more.

Address by the District Board, Dera Ghazi Khan.

We, the members of the District Board of Dera Ghazi Khan, regard it a great privilege and honour to be favoured with this opportunity of congratulating Your Excellency on your appointment as the Governor of the Province and welcoming you in this district. Whatever others might think we of Dera Ghazi Khan do believe that a member of the great service to which Your Excellency belongs, who has devoted some time to study our problem, suits us better as a Governor, than a gentleman belonging to one or other of the Political parties of England whose knowledge of the Province and its people is confined to books. In Your Excellency particularly we are fortunate in having a Governor who has already benefited the Province by serving it in more than one important capacity. There are many among us who had the honour of coming into contact with Your Excellency before your going to the Government of India. The kindness and sympathy which we used to receive then from Your Excellency encourages us in the belief that Your Excellency's regime will be a great success and that under Your Excellency's strong and sympathetic control the Province will make steady progress in all directions.

Your Excellency, it will be a source of pleasure to you to know that when you had been acting as Home Secretary to Government of India, we used to read of your achievements in the higher sphere of Indian politics with great pride. With your coming back to us as our Governor that pride has been enhanced for we realize that we have at the head of our Government an administrator who has already made his mark in the Government of India.

Your Excellency, this is hardly the time or occasion for us to indulge in Political talk. But we as representatives of the rural population of the district beg most respectfully to assure Your Excellency of our steadfast loyalty to the British Crown and our devotion to the cause of law and order. We have nothing but unreserved condemnation for such subversive movements as the so-called civil disobedience and the non-violent non-co operation, which in our humble opinion are the real cause of breeding terrorism. We believe in co-operating with the Government. We stand for the Political advance of India within the Empire by peaceful and constitutional means, namely, by negotiations with the British Parliament through our accredited leaders and not through Political fire-eaters.

With these words we welcome Your Excellency again and subscribe ourselves.

HIS EXCELLENCY then delivered the following speech, an Urdu translation of which was read by the Sub-Divisional Officer, Rajanpur :—

This is my first visit to the Dera Ghazi Khan District, and I shall carry away pleasant memories of it for many reasons, not the least of which is the cordial welcome which you have accorded to me. Hospitality is a tradition of the Beloch, and you propose, during my short stay with you, to overwhelm me with hospitality. You have reminded me of your past history, and the special position in the province, which the Beloch Tumandars occupy on that account. Although I have never had the pleasure of serving in this district, that history is well known to me as a record of unswerving loyalty to the British Crown, of which you and your tribes have good reason to be proud. You have given steadfast support to Government at all times, and I remember with gratitude that, when, at the height of the civil disobedience movement, the peace of the country was threatened by the foolish and criminal actions of those who were bent on uprooting the foundations of law and order, a deputation from the Tumandars of Dera Ghazi Khan waited on my predecessor, and offered to place at its disposal a contingent of 2,000 men for service in any part of India. Although it was not found necessary to take advantage of that offer, Government were deeply appreciative of the feeling of loyalty and service which prompted it, and of the evidence, if any were needed, of the enduring strength of the friendship which has existed without interruption between Government and the Beloches of this district. On more than one occasion my predecessors have assured the Tumandars of the desire of Government to preserve the feudal system of Government which obtains in tribal territory, and to restrict modifications of it to such as the circumstances of the time may make unavoidable. I can assure you that the policy of Government remains unchanged in this respect. At the same time, I must repeat the advice which my predecessors have given you from time to time. The maintenance of the Tumandari system lies in your hands much more than in the hands of Government. Its justification depends on the manner in which it is worked in practice. The Tumandar has now, as he has always had, great opportunities for service to his tribe. The use he makes of those opportunities not only affects the contentment and happiness of the tribesmen committed to his charge, but also determines the regard in which the Tumandari system as a whole is held. Those Tumandars help to maintain the system, who carry on the best traditions of a tribal chief, who, within the tribe, serve the true interests of the tribesmen, and, without it, strive to maintain inter-tribal peace and amity, and who, as members of the jirga, do justice without fear or favour. On the other hand, the Tumandar who uses his power as a means of oppression and self-aggrandisement, who engages in intrigues within and without the tribe, and who is influenced by unworthy motives in the administration of justice, not only weakens the respect with which his own people regard him, but also undermines the foundations on which the whole system rests. It is necessary to realise that with the spread of education and of communications, and with a growing demand for democratic forms of government, the feudal system that now obtains in the tribal area of this district, can continue indefinitely only if its practical

results are such as to justify its claims to existence. Government, for its part, will do all that is reasonably possible to help the Tumandars to fulfil those responsibilities and obligations, the due performance of which is an essential part of the system ; and if any proof were necessary of the good-will of Government, it would, I think, be found in the ceremony which I have just had the privilege of performing.

Owing to the lamented death of Sirdar Mir Murad Bakhsh Khan, the head of the Mazari Tuman, in March last, it was necessary for Government to recognise a successor, and the *Dastarbandi* ceremony which has been performed to-day, records the recognition by Government, as head of the tribe, of Sirdar Balakhsher Khan, the eldest son of the late Tumandar. Government have taken under the Court of Wards the protection of the person and property of the minor chief, and it will spare no endeavour to ensure, first, that the chief shall be so trained and educated as befits the responsibilities he will be called upon to fill when he attains the age and qualifications necessary for the personal leadership of the tribe, and, second, that, during the term of his minority, his estate shall be so managed for his benefit as will enable him to take it over at the proper time in an efficient and prosperous condition. In the meantime, Government have appointed Sirdar Rahim Yar Khan as the Sarbarah Tumandar of the Mazari tribe, and they look to all members of the family and of the tribe to pay to him the same respect and obedience, and to render the same assistance as would be due to Sirdar Balakhsher Khan, were he of an age personally to undertake the chiefship, and as will be due to the now minor chief when, in due course, those responsibilities are committed to him by Government. Sirdar Rahim Yar Khan will have the full support of Government in the discharge of his duties for the good of the tribe, and I am confident that he will equally have the support not only of the members of the tribe itself, but of the Tumandars of the district, who are equally interested in seeing that the traditions of the Tumandari system are faithfully preserved and maintained during the time of a minority. I look with confidence to the Tumandars to assist the district authorities not only in this matter, but in all matters that affect their welfare and that of the district, and I leave it to them to see that no occasion is given for reproaches or misgivings.

In your address, you have mentioned several directions in which you would welcome the assistance of Government. Since the receipt of your address, I have not had the time to examine how far it may be possible to meet them but I have asked the Commissioner to make recommendations in regard to them. Even if it is not possible to give effect to them at once owing to the state of Provincial finances and the stern necessity of the strictest economy, it will be of value to have on record a list of your reasonable requirements, so that consideration may be given to them when more prosperous times return.

You have made reference to the danger of trans-border raids, and have asked that, in this connection, certain proposals be made to the Administration of Baluchistan. The local Government have been in correspondence with the Hon'ble the Agent to the Governor General on these matters, and he is taking what action is practicable. I would only observe that the force of the representations of the local Government in this and other matters of mutual interest is strengthened, if they are able to show that the tribes on their side of the border have given no cause for complaint.

To the Members of the Municipal Committee and of the District Board of Dera Ghazi Khan, I would express my grateful appreciation for their welcome and their good wishes. I know that your condemnation of subversive movements represents the feelings of the people of this district, and that they have no sympathy with, or respect for, those who prejudice the progress of India by their misguided activities. I shall have the opportunity to-morrow of discussing with you, in an informal manner, the affairs of the District Board and of the Municipal Committee, and of learning at first hand the condition of the people of the district and of

their hopes and difficulties. I have no doubt that you will use that opportunity for the purpose for which it is intended, namely, for a frank and friendly talk about the various problems with which you and Government alike are confronted.

I thank you once more for your welcome, and assure the Tumandars and the people of the Dera Ghazi Khan district of the sympathy and good-will of myself and of Government.

THE Commissioner then, with His Excellency's permission, declared the Darbar closed.

His Excellency left the Darbar tent with the same ceremonies as were observed on his arrival.

F. H. PUCKLE,
Offg. Chief Secretary to Government, Punjab.

No. 34141.—His Excellency the Governor and his Ministers have learned, with the deepest regret, of the sudden death, on December the 23rd, 1933, of Major R. C. Malhotra of the Indian Medical Service, Director of Public Health.

The late Major Malhotra was an M.B.Ch.B. (Edinburgh) and D.P.H. (Cambridge). He received a temporary commission in the Indian Medical Service in May 1915, and was on active service in Mesopotamia during the Great War, his services during that period being rewarded with the decoration of the Order of the British Empire. His commission was made permanent in 1920. From the 20th of January 1923 he was in civil employ in the Punjab, holding from that date till February, 1933, the post of Assistant Director of Public Health, in the Southern Circle, the Ambála Circle and the Ráwalpindi Circle, combining with this post at various times the post of Assistant Director of Public Health, Vaccination and Superintendent of Vaccine Institute. On the 27th February of this year, he was appointed Director of Public Health, which post he was holding at the time of his death.

Major Malhotra as Assistant Director of Public Health for 10 years made a valuable contribution to the expansion and development of the Public Health Department. In the 10 months during which he administered that department, he manifested aptitude and enthusiasm for his high task, and it is deeply to be regretted that the untimely close of his life has deprived Government of an officer of considerable achievement and great promise.
